# FinEx Funds ICAV Annual Report and Audited Financial Statements for the financial year ended 30 September 2023

# ICAV Overview

FinEx Funds ICAV (the "ICAV"), is an open-ended Irish collective asset management vehicle which is constituted as an umbrella fund with segregated liability between sub-funds and with variable capital. FinEx Funds plc (the "Company") was incorporated in Ireland on 29 October 2009 under the Companies Act 2014. On 13 July 2020, the Company was converted to an Irish Collective Asset-management Vehicle and registered with the Central Bank of Ireland (the "Central Bank"). On this date the ICAV came into operation as an Irish Collective Asset-management Vehicle under the Irish Collective Asset-management Vehicles Act 2015 (as amended) (the "ICAV Act"). The ICAV is authorised by the Central Bank as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities Pursuant to the prior approval of the Central Bank and additional Sub-Funds may be established from time to time by the Directors with the prior approval of the Central Bank. As at 30 September 2023, the ICAV consisted of fifteen (30 September 2022: fifteen) Sub-Funds (collectively the "Funds", and individually a "Fund").

#### FinEx Tradable Russian Corporate Bonds UCITS ETF\* (the "Fund")

The investment objective of the Fund is to deliver the performance of the Reference Index (being Bloomberg Barclays EM Tradable Russian Corporate Bond (EMRUS) Index) less fees and expenses.

#### FinEx Blockchain UCITS ETF (the "Fund")

The investment objective of the Fund is to track the equity market performance of the Reference Index (Solactive Blockchain Solutions Index) less fees and expenses.

The Fund is an Exchange Traded Fund. The shares of the Fund are listed on Euronext Dublin and are fully transferable among investors. Shares can be bought and sold by public and institutional investors in the secondary market in the same way as the ordinary shares of a listed trading company. The Fund commenced trading on 9 February 2022.

# **ICAV Overview (continued)**

The Board, in consultation with the Manager, the Investment Manager and the Depositary, having considered developments with the Ukraine/Russian Crisis and the exposure the Funds had to Russian securities or Ruble hedging decided to temporarily suspend all dealing on;

- FinEx Tradable Russian Corporate Bond UCITS ETF from 2 March 2022, and
- FinEx Russian RTS Equity UCITS ETF from 4 March 2022 to date.

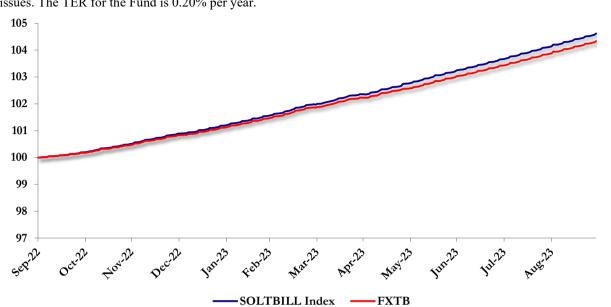

The decision to suspend dealing was taken with the aim of ensuring the interests of all shareholders of the Funds were protected in view of the market impact of the extensive sanctions imposed by the US, EU and others, and by the decision of the Russian Central Bank to temporarily prohibit execution of orders by non-Russian residents to sell securities. The uncertainty meant that the ICAV was unable to establish a firm price for the Funds' holdings in Russian securities and unable to obtain settlement for any sale. There was also an impact of the settlement of FX forwards on Ruble hedging due to the impact of the crisis.

Due to the suspension of dealing on the 2 Sub-Funds, the financial statements are presented with indicative NAVs as at 30 September 2023.

# **Investment Manager's Report**

**The FinEx Tradable Russian Corporate Bonds UCITS ETF** (the "Fund") officially seeks to track the performance of the Bloomberg Barclays EM Tradable Russian Corporate Bond Index (the "Index"), however the index provider, Bloomberg, ceased operating the benchmark after sanctions resulting from the Russia-Ukraine conflict. The TER for the FinEx Tradable Russian Corporate Bonds UCITS ETF-USD share class ("FXRU") is 0.50% per year and for the FinEx Tradable Russian Corporate Bonds UCITS ETF-RUB share class ("FXRB") is 0.95% per year.

For the period from 1 October 2022 to 30 September 2023 there were no published NAVs during the period whilst the fund remained suspended. The RUB share class was terminated on 17<sup>th</sup> January 2023.

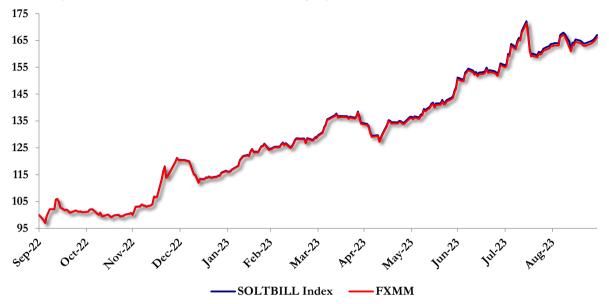

**The FinEx Cash Equivalents UCITS ETF (USD)** (the "Fund" or "FXTB") seeks to track the performance of the Solactive 1-3 month US T-Bill Index (the "Index"). As at 30 September 2023 the Index comprised 18 constituent US Corporate Bond issues. The TER for the Fund is 0.20% per year.

For the period from 1 October 2022 to 30 September 2023 the total return for the Fund as measured by the net asset value ("NAV") was 4.34%, while the Index performance was 4.62%, creating a tracking difference of -0.28%. This difference is driven by small portfolio composition differences between the Fund and the Index, the effect of holding small amounts of cash, the costs associated with portfolio rebalances and the impact of the Fund's TER.

The annualised tracking error for the Fund was 0.08%, while the volatility was 0.21%. The anticipated annualised tracking error in normal market conditions for the Fund is 0.10%.

The US Federal Reserve continued its rate increases throughout the period having started at 3.25% and ended the period at 5.50%. Inflation expectations at the start of the period were largely thought to be transitory. Economic data released throughout the period led to the expectations that supply side constraints will persist and maintain inflationary pressures for longer and therefore keep rates elevated for longer.

**The FinEx Cash Equivalents UCITS ETF (RUB)** (the "Fund" or "FXMM") seeks to track the performance of the Solactive 1-3 month US T-Bill Index converted to RUB (the "Index"). Prior to the lifting of suspension on 8<sup>th</sup> August 2022 the fund tracked the Solactive 1-3 month US T-Bill RUB-Hedged Index. As at 30 September 2023 the Index comprised 18 constituent US Treasury Bill issues. The TER for the Fund is 0.49% per year.

For the period from 1 October 2022 to 30 September 2023 the total return for the Fund as measured by the net asset value ("NAV") was 66.12%, while the Index performance was 67.05%, creating a tracking difference of -0.93%. This difference is driven by small portfolio composition differences between the Fund and the Index, the effect of holding small amounts of cash, the costs associated with portfolio rebalances and the impact of the Fund's TER.

The annualised tracking error for the Fund was 1.20%, while the volatility was 17.16%. The anticipated annualised tracking error in normal market conditions for the Fund is 0.50%. The tracking difference is higher than expected due to a few days where the RUB rate to convert the index differs slightly from the RUB rate used in the fund valuation.

The US Federal Reserve continued its rate increases throughout the period having started at 3.25% and ended the period at 5.50%. Inflation expectations at the start of the period were largely thought to be transitory. Economic data released throughout the period led to the expectations that supply side constraints will persist and maintain inflationary pressures for longer and therefore keep rates elevated for longer. The Fund's performance is dominated by the impact of the RUB which showed continued weakness and significant volatility during the period. The ongoing sanctions against the Russian companies, individuals and government as well as lower oil prices contributed to the pressure on the Ruble.

**The FinEx Fallen Angels UCITS ETF (USD)** (the "Fund" or "FXFA") seeks to track the performance of the Solactive USD Fallen Angel Issuer Capped Index (the "Index"). As at 30 September 2023 the Index comprised 59 constituents of USD denominated bonds recently downgraded into the upper high yield market (between B++ and BB-) with time to maturity greater than one year. The TER for the Fund is 0.60% per year.

For the period from 1 October 2022 to 30 September 2023 the total return for the Fund as measured by the net asset value ("NAV") was 5.37%, while the Index performance was 6.45%, creating a tracking difference of -1.08%. This difference is driven by the TER, rebalance costs and portfolio composition differences between the Fund and the Index created by the small size of the fund and the large minimum trade size of the bonds in the index.

The annualised tracking error for the Fund was 0.47%, while the volatility was 5.66%. The anticipated annualised tracking error in normal market conditions for the Fund is 1.00%.

The initial period of positive performance of the Index was driven by falling Treasury yield expectations with the market anticipating that the Federal Reserve may be able to slow the pace of rate hikes. Then in February, signs were beginning to creep in that the tightening of credit conditions was unsettling the banking system. A series of banking failures, notably of Silicon Valley Bank, saw unprecedented spikes in volatility with yields initially rising sharply then falling as investors rushed to the safety of US Treasury bonds.

Throughout the summer, yield expectations continued to rise again as strong labour data from the United States (despite the recent banking failures) drove up expectations of further interest rate hikes. This was however paired with tightening corporate credit spreads with stronger labour market data suggesting the US economy could be in line for a "soft landing". Another factor keeping credit spreads tight was supply. Higher financing rates are making corporates more hesitant to issue new debt or refinancing existing debt, fuelling a fall in overall supply of bonds for high yield investors, keeping a ceiling on credit spreads. The bout of volatility earlier in 2023 returned after the summer, with US Treasury yields rising further, with what was a fully inverted yield curve only a few months before now being near enough flat across all tenors. Central Banks globally continued their "higher for longer" rhetoric when it came to interest rates, with events such as rising oil prices on the back of OPEC production cuts suggesting that the inflation fight is far from over.

**The FinEx Fallen Angels UCITS ETF (RUB)** (the "Fund" or "FXRD") seeks to track the performance of the Solactive USD Fallen Angel Issuer Capped Index Converted to RUB (the "Index"). As at 30 September 2023 the Index comprised 59 constituents of USD denominated bonds recently downgraded into the upper high yield market (between B++ and BB-) with time to maturity greater than one year. The TER for the Fund is 0.70% per year.

For the period from 1 October 2022 to 30 September 2023 the total return for the Fund as measured by the net asset value ("NAV") was 68.09%, while the Index performance was 69.97%, creating a tracking difference of -1.88%. This difference is driven by the TER, rebalance costs and portfolio composition differences between the Fund and the Index created by the small size of the fund and the large minimum trade size of the bonds in the index.

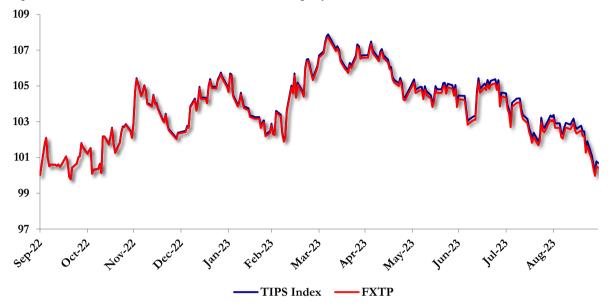

The annualised tracking error for the Fund was 1.27%, while the volatility was 16.88%. The anticipated annualised tracking error in normal market conditions for the Fund is 2.00%.

The initial period of positive performance of the Index was driven by falling Treasury yield expectations with the market anticipating that the Federal Reserve may be able to slow the pace of rate hikes. Then in February, signs were beginning to creep in that the tightening of credit conditions was unsettling the banking system. A series of banking failures, notably of Silicon Valley Bank, saw unprecedented spikes in volatility with yields initially rising sharply then falling as investors rushed to the safety of US Treasury bonds.

Throughout the summer, yield expectations continued to rise again as strong labour data from the United States (despite the recent banking failures) drove up expectations of further interest rate hikes. This was however paired with tightening corporate credit spreads with stronger labour market data suggesting the US economy could be in line for a "soft landing". Another factor keeping credit spreads tight was supply. Higher financing rates are making corporates more hesitant to issue new debt or refinancing existing debt, fuelling a fall in overall supply of bonds for high yield investors, keeping a ceiling on credit spreads. The bout of volatility earlier in 2023 returned after the summer, with US Treasury yields rising further, with what was a fully inverted yield curve only a few months before now being near enough flat across all tenors. Central Banks globally continued their "higher for longer" rhetoric when it comes to interest rates, with events such as rising oil prices on the back of OPEC production cuts suggesting that the inflation fight is far from over.

The fund's performance is dominated by the impact of the RUB which showed continued weakness and significant volatility during the period. The ongoing sanctions against the Russian companies, individuals and government as well as lower oil prices contributed to the pressure on the Ruble.

**The FinEx US TIPS UCITS ETF (USD)** (the "Fund" or "FXTP") seeks to track the performance of the Solactive US 5-20 Year Treasury Inflation-Linked Bond Index (the "Index"). As at 30 September 2023 the Index comprised 17 constituent US Corporate Bond issues. The TER for the Fund is 0.25% per year.

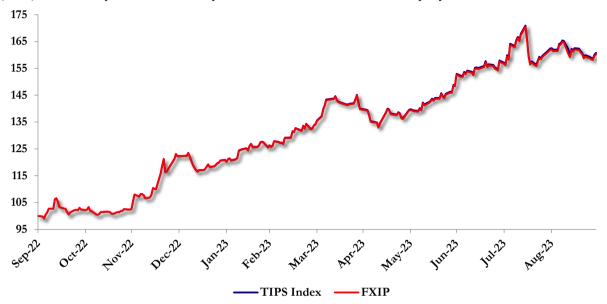

For the period from 1 October 2022 to 30 September 2023 the total return for the Fund as measured by the net asset value ("NAV") was 0.42%, while the Index performance was 0.69%, creating a tracking difference of -0.27%. This difference is driven by small portfolio composition differences between the Fund and the Index, the effect of holding small amounts of cash, the costs associated with portfolio rebalances and the impact of the Fund's TER.

The annualised tracking error for the Fund was 0.11%, while the volatility was 8.34%. The anticipated annualised tracking error in normal market conditions for the Fund is 0.30%.

The TIPS performance during the first half of 2023 was overall positive as treasury yields declined in response to signs of inflation easing from its highest levels in 40 years. There was additional volatility resulting from a banking crisis in the US that saw a number of regional banks fail. The second half of the year saw the TIPS Index give back the majority of its earlier performance as treasury yields rose on the belief that rates would have to stay higher for longer to tackle inflation that was proving persistent.

**The FinEx US TIPS UCITS ETF (RUB)** (the "Fund" or "FXIP") seeks to track the performance of the Solactive US 5-20 Year Treasury Inflation-Linked Bond Index converted to RUB (the "Index"). Prior to 6<sup>th</sup> June 2022 the benchmark did not include the RUB conversion. As at 30 September 2023 the Index comprised 17 US Treasury Inflation-Protected Securities (TIPS) with maturity between 5 and 20 years. The TER for the Fund is 0.30% per year.

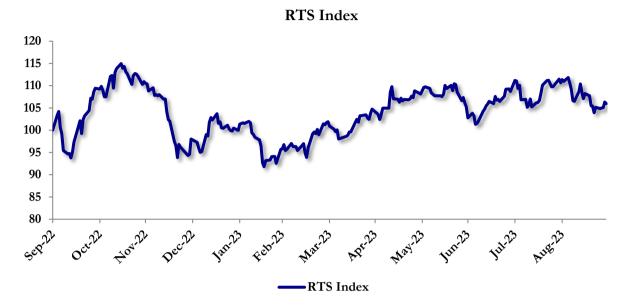

For the period from 1 October 2022 to 30 September 2023 the total return for the Fund as measured by the net asset value ("NAV") was 60.18%, while the Index performance was 60.78%, creating a tracking difference of -0.59%. This difference is driven by the effect of the over performance of the RUB hedge against the index which is unhedged.

The annualised tracking error for the Fund was 1.20%, while the volatility was 17.95%. The anticipated annualised tracking error in normal market conditions for the Fund is 1.30%.

The TIPS performance during the first half of 2023 was overall positive as treasury yields declined in response to signs of inflation easing from its highest levels in 40 years. There was additional volatility resulting from a banking crisis in the US that saw a number of regional banks fail. The second half of the year saw the TIPS Index give back the majority of its earlier performance as treasury yields rose on the belief that rates would have to stay higher for longer to tackle inflation that was proving persistent.

The fund's performance is dominated by the impact of the RUB which showed continued weakness and significant volatility during the period. The ongoing sanctions against the Russian companies, individuals and government as well as lower oil prices contributed to the pressure on the Ruble.

**The FinEx Russian RTS Equity UCITS ETF** (the "Fund" or "FXRL") seeks to track the performance of the RTS Net Total Return Index (Non-Resident) (the "Index"). As at 30 September 2023 the Index comprised 45 constituent members. The TER for the Fund is 0.90% per year.

For the period from 1 October 2022 to 30 September 2023 there were no NAVs published in the period whilst the fund was suspended. The Index performance was 5.96%. The fund remains suspended as sanctions relating to the Russia-Ukraine conflict prevent the investment manager from trading Russian equities.

The annualised tracking error is not applicable whilst NAVs are not published.

The index started the period with a strong rally, rebounding from the heavy fall at the end of the previous period. The rally was undone when, in November, it emerged that the Russian economy had entered into recession. After reaching lows in February, the index gained again into April as Russian investors, prevented from international markets by capital controls and sanctions were attracted to move their money into the relatively cheap, dividend paying, local equities. There was further volatility in June and July as the Wagner private military company's failed coup attempt added to uncertainty for investors.

**The FinEx Germany UCITS ETF (EUR)** (the "Fund" or "FXDE") seeks to track the performance of the Solactive GBS Germany Large & Midcap Index NTR (the "Index"). As at 30 September 2023 the Index comprised 47 constituent members. The TER for the Fund is 0.90% per year.

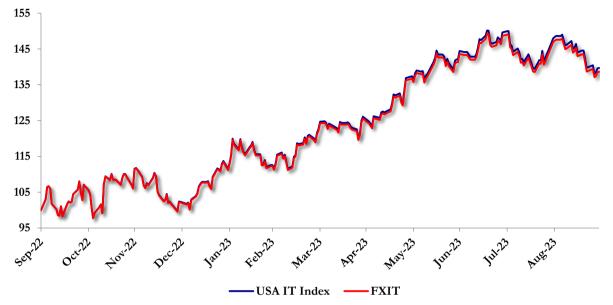

For the period from 1 October 2022 to 30 September 2023 the total return for the Fund as measured by the net asset value ("NAV") was 24.35%, while the Index performance was 24.67%, creating a tracking difference of -0.32%. This difference is due to portfolio composition differences between the Fund and the Index, the effect of holding small amounts of cash, the costs associated with portfolio rebalances, the impact of the Fund's TER and different withholding tax rates applied to the Index. With respect to the latter's contribution to tracking difference, the Solactive index applies dividend withholding tax at a rate of 26.38% while the Fund incurs 15%. Due to sanctions that prevent the purchase of shares issued after 12<sup>th</sup> April 2022 in EU currencies, a number of shares in the fund are restricted from purchase creating mismatches with the index.

The annualised tracking error over the period was 0.30%, while volatility was 15.24%. The anticipated annualised tracking error in normal market conditions for the Fund is 0.10%. The greater than expected tracking error is due to the purchasing restrictions mentioned above.

The Index had a strong positive performance for the first half of the period as the price data showed that inflation was beginning to ease. Along with significantly lower European natural gas prices, government protections from higher energy prices and unions settling for below inflation wage rises, investors were expecting that ECB's rate rise cycle could be slower than initially though. Fears of contagion from US bank collapses temporarily paired this strong performance.

During the final quarter the index began to give back some of the earlier gains. Inflation was persisting for longer than predicted and the higher interest rates were subduing demand with the ECB reducing growth forecasts.

**The FinEx USA Information Technology UCITS ETF (USD)** (the "Fund" or "FXIT") seeks to track the performance of the Solactive US Large & Midcap Technology Index NTR (the "Index"). As at 30 September 2023 the Index comprised 116 constituent members. The TER for the Fund is 1.36% per year.

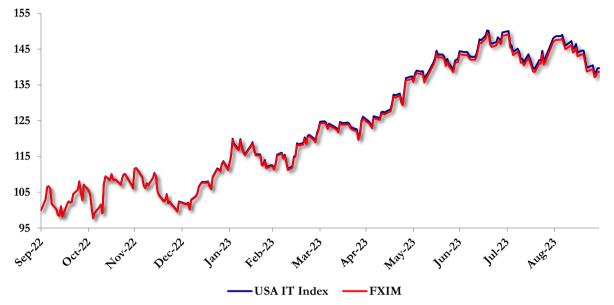

For the period from 1 October 2022 to 30 September 2023 the total return for the Fund as measured by the net asset value ("NAV") was 38.64 %, while the Index performance was 39.71%, creating a tracking difference of -1.06%. This difference is driven by portfolio composition differences between the Fund and the Index, the effect of holding small amounts of cash, the costs associated with portfolio rebalances and the impact of the Fund's TER.

The annualised tracking error over the period was 0.05%, while the volatility was 24.42%. The anticipated annualised tracking error in normal market conditions for the Fund is 0.10%.

The index showed very strong performance from the start of the period through to July 2023. As well as investors expecting a less hawkish Federal Reserve with easing inflation numbers, the IT sector was buoyed by significant progress in artificial intelligence products entering the market such as Bard and ChatGPT. AI products increased demand for cloud computing and processing power. The computer processing chips market had already been experiencing low supply when this additional demand materialised. The chip maker, NVIDIA, one of the index's largest weightings, was up 258% over the period.

The period's gains were tempered in the last quarter by expectations that the economy will be negatively impacted with interest rates staying higher for longer to combat the stickier than expected inflation.

**The FinEx USA Information Technology UCITS ETF (Mini Shares)** (the "Fund" or "FXIM") seeks to track the performance of the Solactive US Large & Midcap Technology Index NTR (the "Index"). As at 30 September 2023 the Index comprised 116 constituent members. The TER for the Fund is 0.90% per year.

For the period from 1 October 2022 to 30 September 2023 the total return for the Fund as measured by the net asset value ("NAV") was 38.64%, while the Index performance was 39.71%, creating a tracking difference of -1.07%. This difference is driven by portfolio composition differences between the Fund and the Index, the effect of holding small amounts of cash, the costs associated with portfolio rebalances and the impact of the Fund's TER.

The annualised tracking error over the period was 0.09%, while the volatility was 24.41%. The anticipated annualised tracking error in normal market conditions for the Fund is 0.10%.

The index showed very strong performance from the start of the period through to July 2023. As well as investors expecting a less hawkish Federal Reserve with easing inflation numbers, the IT sector was buoyed by significant progress in artificial intelligence products entering the market such as Bard and ChatGPT. AI products increased demand for cloud computing and processing power. The computer processing chips market had already been experiencing low supply when this additional demand materialised. The chip maker, NVIDIA, one of the index's largest weightings, was up 258% over the period.

The period's gains were tempered in the last quarter by expectations that the economy will be negatively impacted with interest rates staying higher for longer to combat the stickier than expected inflation.

**The FinEx USA UCITS ETF (USD)** (the "Fund" or "FXUS") seeks to track the performance of the Solactive GBS US Large & Midcap Index NTR (the "Index"). As at 30 September 2023 the Index comprised 497 constituent members. The TER for the Fund is 0.90% per year.

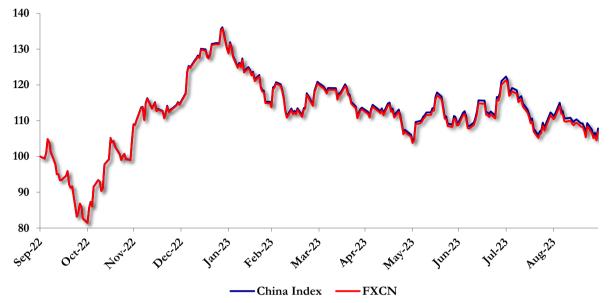

For the period from 1 October 2022 to 30 September 2023 the total return for the Fund as measured by the net asset value ("NAV") was 20.70%, while the Index performance was 21.49%, creating a tracking difference of -0.79%. This difference is driven by portfolio composition differences between the Fund and the Index, the effect of holding small amounts of cash, the costs associated with portfolio rebalances and the impact of the Fund's TER.

The annualised tracking error over the period was 0.09%, while the volatility was 17.35%. The anticipated annualised tracking error in normal market conditions for the Fund is 0.10%.

The index showed very strong performance from the start of the period through to July 2023. As well as investors expecting a less hawkish Federal Reserve with easing inflation numbers, the IT sector which is approximately 30% of the index weight, was buoyed by significant progress in artificial intelligence products entering the market such as Bard and ChatGPT. AI products increased demand for cloud computing and processing power. The computer processing chips market had already been experiencing low supply when this additional demand materialised. The chip maker, NVIDIA, one of the index's largest weightings, was up 258% over the period.

The period's gains were tempered in the last quarter by expectations that the economy will be negatively impacted with interest rates staying higher for longer to combat the stickier than expected inflation.

**The FinEx China UCITS ETF (USD)** (the "Fund" or "FXCN") seeks to track the performance of the Solactive China ex A-Shares Large & Midcap USD Index NTR (the "Index"). The Index currently comprises 220 constituent members. The TER for the Fund is 0.90% per year.

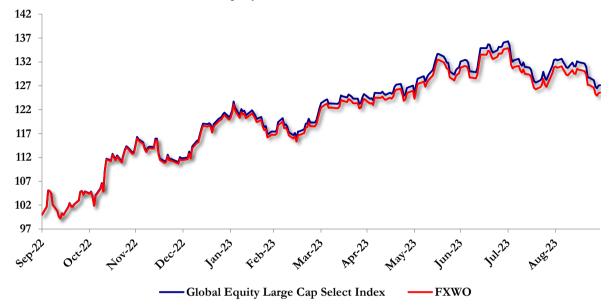

For the period from 1 October 2022 to 30 September 2023 the total return for the Fund as measured by the net asset value ("NAV") was 6.91%, while the Index performance was 7.83%, creating a tracking difference of -0.92%. This difference is driven by portfolio composition differences between the Fund and the Index, the effect of holding cash and dividends accrued but not paid for a long time, the costs associated with portfolio rebalances, the impact of the Fund's TER and large minimum lot sizes in many stocks creating slight allocation differences between the Index and the Fund.

The annualised tracking error over the period was 0.16%, while the volatility was 31.29%. The anticipated annualised tracking error in normal market conditions for the Fund is 0.90%.

The strong performance of the Index in the first quarter was due to the Chinese government easing stringent Covid restrictions allowing more economic activity. The strong performance continued into January as economic data demonstrated that the recovery was underway. At the end of January geopolitical tensions were heightened when the US accused China of spying with the use of a high-altitude surveillance balloon that the US subsequently shot down. After these events, the index performed negatively into March. In the second half of the period, it became apparent that the recovery wasn't as strong as initially expected. Persisting issues with defaulting Chinese property developers and fears of creating a liquidity crisis further into the economy counteracted with a series of interventions by the government added some volatility but ultimately saw weak performance for the second half of the period.

**The FinEx Global Equity UCITS ETF (USD Share Class)** (the "Fund" or "FXWO") seeks to track the performance of the Solactive Global Equity Large Cap Select Index NTR (the "Index"). The Index currently comprises 508 constituent members. The TER for the Fund is 0.90% per year.

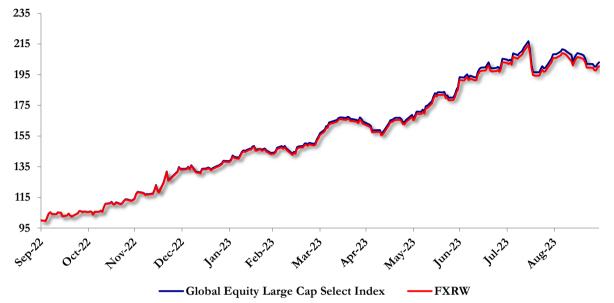

For the period from 1 October 2022 to 30 September 2023 the total return for the Fund as measured by the net asset value ("NAV") was 25.99% for the USD share class, while the Index performance was 27.14%, creating a tracking difference of -1.16%. The difference is driven by minimum lot sizes in many stocks preventing full replication of the index and the TER.

The annualised tracking error over the period was 0.09%, while the volatility was 13.94%. The anticipated annualised tracking error in normal market conditions for the Fund is 0.40%.

The index showed very strong performance from the start of the period through to July 2023. With data indicating easing inflation, it was expected that central banks would not have to restrict the economies as much as previously thought. This was supported by strong IT sector performance. As the period progressed, inflation didn't fall as quickly as investors had initially hoped, tempering performance in the last quarter with the risk that interest rates could stay higher for longer.

**The FinEx Global Equity UCITS ETF (RUB Share Class)** (the "Fund" or "FXRW") seeks to track the performance of the Solactive Global Equity Large Cap Select Index NTR (the "Index") converted to RUB. The Index currently comprises 508 constituent members. The TER for the Fund is 0.90% per year.

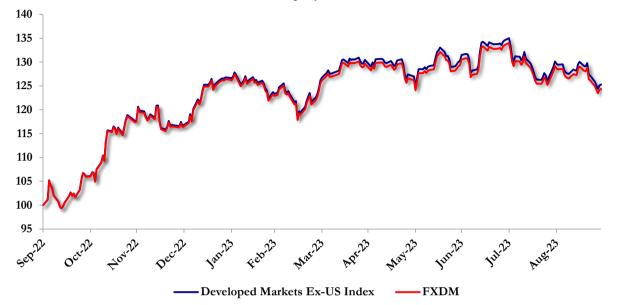

For the period from 1 October 2022 to 30 September 2023 the total return for the Fund as measured by the net asset value ("NAV") was 100.51% for the USD share class, while the Index performance was 103.01%, creating a tracking difference of -2.50%. The difference is driven by minimum lot sizes in many stocks preventing full replication of the index and the TER.

The annualised tracking error over the period was 1.30%, while the volatility was 19.45%. The anticipated annualised tracking error in normal market conditions for the Fund is 0.40%. The higher-than-expected tracking difference is due to slight mismatches between the FX rate used to price the fund in RUB and the FX rate used to convert the benchmark to RUB.

The index showed very strong performance from the start of the period through to July 2023. With data indicating easing inflation, it was expected that central banks would not have to restrict the economies as much as previously thought. This was supported by strong IT sector performance. As the period progressed, inflation didn't fall as quickly as investors had initially hoped, tempering performance in the last quarter with the risk that interest rates could staying higher for longer.

The fund's performance is dominated by the impact of the RUB which showed continued weakness and significant volatility during the period. The ongoing sanctions against the Russian companies, individuals and government as well as lower oil prices contributed to the pressure on the Ruble.

**The FinEx Developed Markets Ex USA UCITS ETF** (the "Fund" or "FXDM") seeks to track the performance of the Solactive GBS Developed Markets ex United States 200 USD Index NTR (the "Index"). The Index currently comprises 201 constituent members. The TER for the Fund is 0.90% per year.

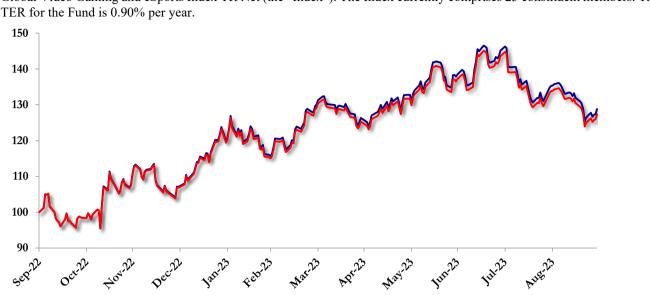

For the period from 1 October 2022 to 30 September 2023 the total return for the Fund as measured by the net asset value ("NAV") was 24.35%, while the Index performance was 25.3%, creating a tracking difference of -0.95%. This difference is driven by portfolio composition differences between the Fund and the Index, the effect of holding cash and dividends accrued but not paid for a long time, the costs associated with portfolio rebalances, the impact of the Fund's TER and large minimum lot sizes in many stocks creating slight allocation differences between the Index and the Fund. Due to sanctions that prevent the purchase of shares issued after 12<sup>th</sup> April 2022 in EU currencies, a number of shares in the fund are restricted from purchase creating mismatches with the index.

The annualised tracking error over the period was 0.19%, while the volatility was 14.87%. The anticipated annualised tracking error in normal market conditions for the Fund is 0.40%.

The Index had a strong positive performance for the first half of the period as the price data showed that inflation was beginning to ease. Along with significantly lower European natural gas prices, government protections from higher energy prices and unions settling for below inflation wage rises, investors were expecting that ECB's rate rise cycle could be slower than initially though. Fears of contagion from US bank collapses temporarily paired this strong performance.

During the final quarter the index began to give back some of the earlier gains. Inflation was persisting for longer than predicted and the higher interest rates were subduing demand with the ECB reducing growth forecasts.

**The FinEx Video Gaming and eSports UCITS ETF** (the "Fund" or "FXES") seeks to track the performance of the MVIS Global Video Gaming and eSports Index TR Net (the "Index"). The Index currently comprises 25 constituent members. The TER for the Fund is 0.90% per year.

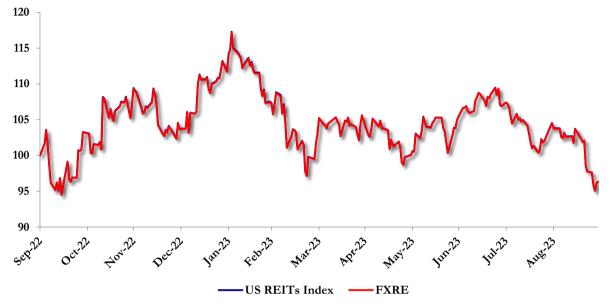

For the period from 1 October 2022 to 30 September 2023 the total return for the Fund as measured by the net asset value ("NAV") was 27.35%, while the Index performance was 28.83%, creating a tracking difference of -1.47%. This difference is driven by portfolio composition differences between the Fund and the Index, the effect of holding cash and dividends accrued but not paid for a long time, the costs associated with portfolio rebalances, the impact of the Fund's TER and large minimum lot sizes in many stocks creating slight allocation differences between the Index and the Fund. Due to sanctions that prevent the purchase of shares issued after 12<sup>th</sup> April 2022 in EU currencies, a number of shares in the fund are restricted from purchase creating mismatches with the index.

The annualised tracking error over the period was 0.47%, while the volatility was 23.19%. The anticipated annualised tracking error in normal market conditions for the Fund is 1.00%.

The index performed positively for the period, benefitting from China's easing of Covid pandemic restrictions and strong performance of the chip manufacturers who have seen increasing demand from new developments in artificial intelligence. Performance was muted in the last quarter by a number of game producers that released poor results with delayed product releases, lower sales or reduced users during the period.

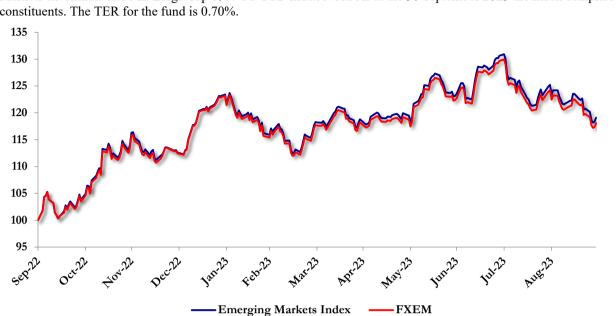

**The FinEx US REIT UCITS ETF** (the "fund" or "FXRE") seeks to track the performance of the Solactive GPR United States REIT ex Timber and Mortgage Index NTR (the "Index"). The index comprises of 108 constituents. The TER for the Fund is 0.6% per year.

For the period from 1 October 2022 to 30 September 2023 the total return for the Fund as measured by the net asset value ("NAV") was -3.63%, while the Index performance was -3.66%, creating a tracking difference of 0.02%. This difference is driven by portfolio composition differences between the Fund and the Index, the effect of holding cash and dividends accrued but not paid for a long time, the costs associated with portfolio rebalances and the impact of the Fund's TER.

The annualised tracking error over the period was 0.18%, while the volatility was 21.80%. The anticipated annualised tracking error in normal market conditions for the Fund is 0.6%.

The REIT index performed positively through to January on expectations of less restrictive policy from The Federal Reserve after inflation eased. The banking crisis in the US meant there was a risk that banks would seek more liquid balance sheets and lending could be restricted. This led to a pull back in the Index performance. With inflation looking stickier towards the end of the period, expectations of rates staying higher for longer caused further negative performance resulting in the index being down overall for the period.

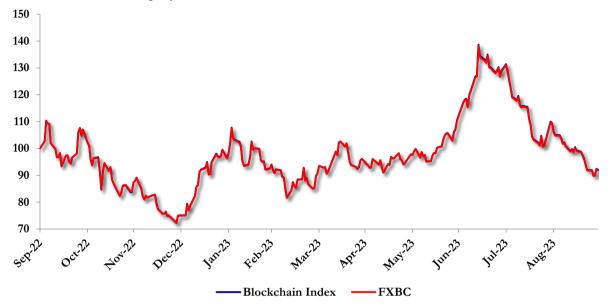

**The FinEx Emerging Markets ex-Chindia UCITS ETF** seeks to track the performance of the Solactive GBS Emerging Markets ex Chindia and ME Large Cap 15% CC USD Index NTR. As at the 30 September 2023 the Index comprised of 353 constituents. The TER for the fund is 0.70%.

For the period from 1 October 2022 to 30 September 2023 the total return for the Fund as measured by the net asset value ("NAV") was 18.09%, while the Index performance was 19.11%, creating a tracking difference of -1.02%. The difference is driven by portfolio composition differences between the Fund and the Index, the costs associated with portfolio rebalances, the impact of the Fund's TER and large minimum lot sizes in many stocks creating slight allocation differences between the Index and the Fund due to its small size.

The annualised tracking error over the period was 0.55%, while the volatility was 13.44%. The anticipated annualised tracking error in normal market conditions for the Fund is 1.00%.

The period started with strong performance as inflation began to ease and central banks were expected to limit their hawkish policies. A US banking crisis in January created a risk-off sentiment with negative performance from emerging markets. As fears of contagion from the banking bankruptcies eased, the fund's performance recovered also aided by the strong rally from its largest constituent, a computer chip manufacturer that is benefiting from higher demand due to significant developments in artificial intelligence. The period's gains were reduced slightly in the final quarter as it seemed central banks would keep interest rates higher for longer as inflation was appearing stickier than expected.

**The FinEx Blockchain UCITS ETF** (the "fund" or "FXBC") seeks to track the performance of the Solactive Blockchain Solutions Index NTR (the "Index"). As of the 30<sup>th</sup> September 2023 the index comprised of 30 constituent members. The TER for the Fund is 0.80% per year.

For the period from 1 October 2022 to 30 September 2023 the total return for the Fund as measured by the net asset value ("NAV") was -8.19%, while the Index performance was -7.94%, creating a tracking difference of -0.25%. This difference is driven by portfolio composition differences between the Fund and the Index, the effect of holding cash and dividends accrued but not paid for a long time, the costs associated with portfolio rebalances, the impact of the Fund's TER and large minimum lot sizes in many stocks creating slight allocation differences between the Index and the Fund.

The annualised tracking error over the period was 1.38%, while the volatility was 44.40%. The anticipated annualised tracking error in normal market conditions for the Fund is 0.5%. The greater than expected tracking error is due to the high volatility of the index and the small size of the fund preventing full replication of the benchmark.

The Index performance started the period negatively as the prospect of a high interest environment saw the unwinding of leveraged cryptocurrency positions. There was additional downward pressure in November with a high-profile collapse of crypto exchange, FTX, which precipitated a series of bankruptcies within the sector. With crypto currencies looking more attractive (bitcoin circa 75% off its all time high) the price rebounded along with the wider sector with the backdrop of lower inflation data and expectations that interest rates might not go as high as initially feared. The index rallied to its highs of the period in July supported by its largest holding Microstrategy which held a large number of bitcoin on its balance sheet during a bitcoin rally and has a number of artificial intelligence (AI) solutions whilst the AI market was going through positive developments. These gains were erased in the final quarter as bitcoin fell on the prospect of interest rates remaining higher for longer as well as a lack of progress from regulators in implementing a comprehensible regulatory regime for cryptocurrencies.

Sanarus Investment Management LLP Date: 13 October 2023

# **Directors' Report**

The Directors present herewith the Directors' Report and Audited Financial Statements of the ICAV for the financial year ended 30 September 2023.

#### Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' Report and Audited Financial Statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union (the "EU") and which comply with the ICAV Act, the UCITS Regulations and the Central Bank UCITS Regulations.

The ICAV Act requires the Directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the ICAV and of its profit or loss for that financial year.

In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with IFRS as adopted by the EU and ensure that they contain the additional information required by the ICAV Act; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the ICAV will continue in business, as set out in Note 1(a).

The Directors confirm that they have complied with the above requirements in preparing these financial statements.

The Directors are responsible for keeping adequate accounting records that are sufficient to correctly record and explain the transactions of the ICAV and that disclose with reasonable accuracy at any time, the financial position of the ICAV and enable them to ensure that its financial statements comply with the ICAV Act, the UCITS Regulations and the Central Bank UCITS Regulations. The Directors are also responsible for safeguarding the assets of the ICAV and for taking reasonable steps for the prevention and detection of fraud and other irregularities. The accounting records are maintained at the office of Citibank Europe plc (the "Administrator") at 1 North Wall Quay, Dublin 1, Ireland.

In fulfilment of these responsibilities the Administrator has been appointed for the purpose of maintaining adequate accounting records and Citi Depositary Services Ireland Designated Activity Company (the "Depositary") has been appointed for the purpose of safeguarding the assets of the ICAV.

The financial statements are published on the ICAV's website <u>http://www.finexetf.com</u>. The Investment Manager is responsible for the maintenance and integrity of the corporate and financial information included on the ICAV's website as far as it relates to the ICAV. Legislation in the Republic of Ireland governing the presentation and dissemination of the financial statements may differ from legislation in other jurisdictions.

#### **Corporate Governance**

Although there is no statutory corporate governance code applicable to Irish collective investment schemes whose shares are admitted to trading on Euronext Dublin, the Directors have voluntarily adopted the Corporate Governance Code for Collective Investment Schemes and Management Companies as published by Irish Funds (the "IF Code"), as the ICAV's corporate governance code.

The IF Code reflects existing corporate governance practices imposed on Irish authorised collective investment schemes and is available on request from the Secretary. The IF Code can be obtained from the IF website <u>www.IrishFunds.ie</u>.

The ICAV is subject to corporate governance practices imposed by:

- (i) The ICAV Act, which is available for inspection at the registered office of the ICAV, and may also be obtained at website <a href="http://www.irishstatutebook.ie/home">http://www.irishstatutebook.ie/home</a>
- (ii) The Instrument of Incorporation of the ICAV which is available for inspection at the registered office of the at the 4<sup>th</sup> Floor, 35 Shelbourne Road, Ballsbridge, Dublin, Ireland, D04 A4E0 and may be obtained from the Central Bank's website at <u>http://registers.centralbank.ie;</u>
- (iii) The UCITS Regulations and the Central Bank UCITS Regulations which can be obtained from the Central Bank's website at <u>www.centralbank.ie</u> and are available for inspection at the registered office of the ICAV; and

# **Directors' Report (continued)**

#### **Corporate Governance (continued)**

(iv) Euronext Dublin through the Euronext Dublin Code of Listing Requirements and Procedures for Investment Funds which can be obtained at <u>www.ise.ie</u>.

#### Directors

The Directors who held office during the financial year were Jeremy O'Sullivan (Ireland), Simon Luhr (United Kingdom) and Tom Murray (Ireland).

#### Directors' Interests in Shares and Contracts

None of the Directors had any interests in the shares of the ICAV at the financial year end or at any time during the financial year.

Mr Simon Luhr is a partner of the Investment Manager, Sanarus Investment Management LLP, and majority beneficial owner of the FinEx Group of Companies.

Other than as set out in Note 10 to the Financial Statements, there are no contracts or arrangements of any significance in relation to the business of the ICAV in which the Directors had any interest as defined in the ICAV Act, at any time during the financial year.

#### **Connected Persons**

Regulation 42 of the Central Bank UCITS Regulations states that a "Connected person" means the management company or depositary to a UCITS; and the delegates or sub delegates of such a management company or depositary (excluding any nongroup company sub-custodians appointed by a depositary); and any associated or group company of such a management company, depositary, delegate or sub-delegate.

Regulation 43(1) of the Central Bank UCITS Regulations requires that any transaction carried out with a UCITS by a Connected Person must be carried out as if conducted at arm's length and must be in the best interests of the shareholders. As required by Regulation 81(4) of Central Bank UCITS Regulations, the Manager, as responsible person is satisfied that there are arrangements in place, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a Connected Person; and all transactions with a Connected Person that were entered into during the financial year ended 30 September 2023 complied with the obligations that are prescribed by Regulation 43(1).

#### Principal Activities - Review of the Business and Future Developments

The ICAV is authorised by the Central Bank as an undertaking for collective investment in transferable securities pursuant to the UCITS Regulations.

The investment objective of each Fund is to seek to provide shareholders with a return (either at the relevant scheduled maturity date or on each dealing day) linked to a reference index or reference asset. The Funds will continue to pursue their investment objectives.

The Investment Manager's Report contains a review of the factors which contributed to the performance for the financial year.

#### **Principal Risks and Uncertainties**

The main risks arising from the ICAV's financial instruments are market price, interest rate, currency, credit and liquidity risks which are outlined, together with the associated risk management objectives and policies, in Note 2 to the financial statements.

The Directors also consider the macroeconomic risks. These include risks arising from uncertainties relating to the Ukraine/Russian crisis and the exposure the Funds have to Russian securities as outlined in Significant Events During the Financial Year and Significant Subsequent Events.

# **Directors' Report (continued)**

#### Significant Events During the Financial Year

The ongoing conflict between Russia and Ukraine resulted in increased economic and political uncertainty and caused significant volatility in global financial markets since 2022. Economic sanctions imposed on Russia in response to its invasion of Ukraine impacted companies operating in a wide variety of sectors, including energy, financial services, and defence. The suspension of financial exchanges and trade settlement difficulties resulted in illiquidity in sanctioned markets. There were also issues with the receipt of coupons and dividends from securities in those markets.

The Board, in consultation with the Manager, the Investment Manager and the Depositary, having considered developments with the Ukraine/Russian Crisis and the exposure the Funds had to Russian securities or Ruble hedging decided to temporarily suspend all dealing on;

- FinEx Tradable Russian Corporate Bond UCITS ETF from 2 March 2022, and
- FinEx Russian RTS Equity UCITS ETF from 4 March 2022 to date.

The decision to suspend dealing was taken with the aim of ensuring the interests of all shareholders of the Funds were protected in view of the market impact of the extensive sanctions imposed by the US, EU and others, and by the decision of the Russian Central Bank to temporarily prohibit execution of orders by non-Russian residents to sell securities. The uncertainty meant that the ICAV was unable to establish a firm price for the Funds' holdings in Russian securities and unable to obtain settlement for any sale. There was also an impact of the settlement of FX forwards on Ruble hedging due to the impact of the crisis.

The imposition of economic sanctions against Russia in response to its invasion of Ukraine has resulted in restricted or no access to certain markets, investments, service providers or counterparties and will likely continue to negatively impact the performance of the Funds with direct exposure to this region and may restrict the ability of the Investment Manager to implement the investment strategy of the Funds and achieve their investment objective. In addition, global equity and debt markets have experienced substantial volatility.

On 28 October 2022, the Manager and Secretary became members of the Waystone Group and, on 12 December 2022, changed their address to 35 Shelbourne Road, Ballsbridge, Dublin, D04 A4E0, Ireland. As part of the change, the registered office of the ICAV also changed to the same address. On 29 September 2023, KBA Consulting Management Limited, the Manager of the ICAV, completed its merger with Waystone Management Company (IE) Limited ("WMC"). WMC is the surviving entity post-merger and as such, the ICAV's Manager is WMC from this date. As part of the change, the Secretary changed its name from Clifton Fund Consulting Limited, trading as KB Associates to Clifton Fund Consulting Limited, trading as Waystone.

The FinEx Tradable Russian Corporate Bond UCITS ETF RUB Class was terminated on 17 January 2023.

All sub-funds delisted from trading on the Moscow Exchange effective 30 June 2023 with no trading in the shares taking place since the suspension began (suspended since 25<sup>th</sup> February 2022). As the National Securities Depositary (NSD) is sanctioned by the EU Commission, any shares held in the NSD account at Euroclear have been frozen and remain frozen.

PricewaterhouseCoopers, Chartered Accountants resigned as the Auditor during March 2023 in line with the IAASA Ethical Standard, the year ended 30 September 2022 was PwC's tenth and final year as auditor for the sub funds. PwC resigned in accordance with the requirements of mandatory firm rotation. Grant Thornton, Chartered Accountants & Statutory Audit Firm, was appointed as the new auditor on 5 July 2023.

There were no other significant events during the financial period that require disclosure in the financial statements.

# FinEx Funds ICAV Annual Report and Audited Financial Statements for the financial year ended 30 September 2023

# **Directors' Report (continued)**

#### Significant Subsequent Events

Considering the outlook for

- (a) FinEx Russian RTS Equity UCITS ETF the Board, in consultation with the Manager, the Investment Manager and the Depositary, have decided to maintain the suspension of this Sub-fund up to the date of signing the financial statements.
- (b) FinEx Tradable Russian Corporate Bond UCITS ETF the Board, in consultation with the Manager, the Investment Manager and the Depositary, have decided to maintain the suspension of this Sub-fund up to the 31 January 2024. On 31 January 2024 an extraordinary general meeting of the FinEx Tradable Russian Corporate Bond UCITS ETF, was convened where the following resolution was passed.

BY ORDINARY RESOLUTION:

"THAT the New Investment Objective of the Fund and the New Investment Policy of the Fund hereby be approved subject to such amendments necessary to deal with any comments raised by the Central Bank of Ireland as any director of the ICAV may approve".

In early October 2023 the outbreak of war between Israel and Hamas resulted in increased economic and political uncertainty and caused volatility in global financial markets (particularly crude oil). As this is an evolving situation the Directors will continue to monitor any potential impact on the ICAV.

Restricted cash of USD 1,288,858 due to an unsettled redemption on the FinEx Cash Equivalents UCITS ETF as at 30 September 2022, was cancelled on 8 February 2024. After numerous attempts to source the shares to settle the redemption failed, the Authorised Participant requested that the redemption trade be cancelled and agreed to pay a settlement amount of \$124,000 to partially offset the loss incurred by the share class. Considering available options and in the best interests of the investors, the board agreed to the cancellation and the settlement amount. The redemption trade was cancelled, and the settlement amount received by the share class on 8 February 2024.

There were no other significant events after the financial year end that require disclosure in the financial statements.

#### **Dividend Policy**

The Funds, except for FinEx Fallen Angels UCITS ETF, do not intend to pay dividends. Accordingly, there were no distributions declared by any of these Funds during the financial years ended 30 September 2023 and 30 September 2022.

FinEx Fallen Angels UCITS ETF may declare and pay dividends on the RUB shares. Dividends, if any are declared, will be calculated semi-annually on the last business day of the month in which the dividend is declared. The Fund does not intend to pay dividends on the USD shares.

During the financial year ended 30 September 2023, FinEx Fallen Angels UCITS ETF paid dividends of RUB nil (RUB nil dividend per share) (30 September 2022: RUB 4,930,000 (RUB 2.9 dividend per share) on the RUB Shares.

#### **Independent Auditors**

Grand Thornton, Chartered Accountants & Statutory Audit Firm was appointed during the year and expressed their willingness to be appointed as the auditor of the ICAV in accordance with section 125(2) of the ICAV Act.

On behalf of the Board of Directors

JEREMY O'SULLIVAN

Director:

# **FinEx Funds ICAV**

#### Report of the Depositary to the Shareholders

We have enquired into the conduct of FinEx Funds ICAV (the 'ICAV') for the year ended 30 September 2023, in our capacity as Depositary to the ICAV.

This report including the opinion has been prepared for and solely for the shareholders of the ICAV as a body, in accordance with the UCITS Regulations, as amended, and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

#### **Responsibilities of the Depositary**

Our duties and responsibilities are outlined in the UCITS Regulations, as amended. One of those duties is to enquire into the conduct of the ICAV in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the ICAV has been managed in that period in accordance with the provisions of the ICAV's Instruments of Incorporation and the UCITS Regulations, as amended. It is the overall responsibility of the ICAV to comply with these provisions. If the ICAV has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

#### **Basis of Depositary Opinion**

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in the UCITS Regulations, as amended, and to ensure that, in all material respects, the ICAV has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the ICAV's constitutional documentation and the appropriate regulations.

#### Opinion

In our opinion, the ICAV has been managed during the period, in all material respects:

(i) in accordance with the limitations imposed on the investment and borrowing powers of the ICAV by the Instruments of Incorporation and by the UCITS Regulations, as amended; and

(ii) otherwise in accordance with the provisions of the Instruments of Incorporation and the UCITS Regulations, as amended.

Citi Depositary Services Ireland Designated Activity Company 1 North Wall Quay Dublin

Date: 12 February 2024

Citi Depositary Services Ireland Designated Activity Company

# O Grant Thornton

# Independent auditor's report to the shareholders of FinEx Funds ICAV

# Report on the audit of the financial statements

# Opinion

We have audited the financial statements of FinEx Funds ICAV (or the "ICAV") which comprise the Statement of Financial Position and Portfolio Listing as at 30 September 2023, the Statement of Comprehensive Income, the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares and the Statement of Cash Flows for the financial year ended 30 September 2023, and the related notes to the financial statements, including the summary of significant accounting policies.

The financial reporting framework that has been applied in the preparation of the financial statements is Irish law and International Financial Reporting Standards (IFRS) as adopted by the European Union.

In our opinion, the ICAV's financial statements:

- give a true and fair view in accordance with IFRS as adopted by the European Union of the assets, liabilities and financial position of the ICAV as at 30 September 2023 and of its financial performance and cash flows for the financial year then ended; and
- have been properly prepared in accordance with the requirements of the Irish Collective Assetmanagement Vehicle Act 2015 (as amended) ("ICAV Act") and European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2019.

# Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ('ISAs (Ireland)') and applicable law. Our responsibilities under those standards are further described in the 'Responsibilities of the auditor for the audit of the financial statements' section of our report. We are independent of the ICAV in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, including the Ethical Standard for Auditors (Ireland) issued by the Irish Auditing and Accountancy Supervisory Authority (IAASA), and the ethical pronouncements established by Chartered Accountants Ireland, applied as determined to be appropriate in the circumstances for the ICAV. We have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the directors' assessment of the ICAV's ability to continue as a going concern basis of accounting included:

- Evaluating management's future plans for the sub-fund's over the going concern period (being 12 months from the date of approval of financial statements) and review post year-end Net Asset Value ("NAV");
- Making inquiries with management and reviewing the board minutes and available written communication with Central Bank in order to understand the future plans and to identify potential contradictory information; and
- Assessing the adequacy of the disclosures with respect to the going concern assertion.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the ICAV's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

# Independent auditor's report to the shareholders of FinEx Funds ICAV (continued)

#### Other matters

The financial statements of FinEx Funds ICAV for the year ended 30 September 2022, were audited by PricewaterhouseCoopers who expressed an unmodified opinion on those statements on 28 February 2023.

#### Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current financial period and include the most significant assessed risks of material misstatement (whether or not due to fraud) we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit, and the directing of efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and therefore we do not provide a separate opinion on these matters.

#### Overall audit strategy

We designed our audit by determining materiality and assessing the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. We also addressed the risk of management override of internal controls, including evaluating whether there was any evidence of potential bias that could result in a risk of material misstatement due to fraud.

Based on our considerations as set out below, our area of focus included:

- Existence of financial assets at fair value through profit or loss ("FVTPL"); and
- Valuation of financial assets at FVTPL.

# How we tailored the audit scope

The ICAV is an open-ended umbrella investment company with segregated liability between sub-funds. As at 30 September 2023, there were fifteen sub-funds in existence. The directors control the affairs of the ICAV and they are responsible for the overall investment policy, which is determined by them. The ICAV engages Waystone Management Company (IE) Limited (or the "Manager") to manage certain duties and responsibilities with regards to the day-to-day management of the ICAV and Sanarus Investment Manager") to carry out portfolio management services to the ICAV and general administration functions.

The directors have delegated certain responsibilities to Citibank Europe plc (or the "Administrator") including the maintenance of accounting records. The financial statements, which remain the responsibility of the directors, are prepared on their behalf by the Administrator. The ICAV has appointed Citi Depositary Services Ireland Designated Activity Company as its Depositary for the safekeeping of cash/bank balances and its investments.

We tailored the scope of our audit taking into account the types of investments within the ICAV, the involvement of the third parties, the accounting processes and controls, and the industry in which the ICAV operates.

In establishing the overall approach to our audit we assessed the risk of material misstatement at ICAV level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the ICAV's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

# Independent auditor's report to the shareholders of FinEx Funds ICAV (continued)

# Key audit matters (continued)

# Materiality and audit approach

The scope of our audit is influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, such as our understanding of the ICAV and its environment, the history of misstatements, the complexity of the ICAV and the reliability of the control environment, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and on the financial statements as a whole.

Based on our professional judgement, we determined materiality for each of the ICAV as follows: 0.5% of published Net Asset Value ("NAV") of each sub-fund, as at 30 September 2023. We have applied this benchmark as the ICAV is regulated by the Central Bank of Ireland and the portfolios of the active sub-funds are liquid and majority of investments can be easily valued.

We have set performance materiality for each of the sub-funds at 60% of materiality, having considered business risks and fraud risks associated with the ICAV, its sub-funds, and its control environment. This is to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements in the financial statements exceeds materiality for the financial statements as a whole.

We agreed with the directors that we would report to them misstatements identified during our audit above 5% of each sub-fund's materiality, as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

# Significant matters identified

The risks of material misstatement that had the greatest effect on our audit, including the allocation of our resources and effort, are set out below as significant matters together with an explanation of how we tailored our audit to address these specific areas in order to provide an opinion on the financial statements as a whole. This is not a complete list of all risks identified by our audit.

Significant	Description of Significant Matter and Audit Response
matter	
Existence of financial assets at fair value through profit or loss	analysed in note 1(b) and note 2(d). We considered the risk that the financial assets at FVTPL
	Significant auditor's attention was deemed appropriate because of the materiality of the financial assets at FVTPL. As a result, we considered this as key audit matter.
	<ul> <li>The following audit work has been performed to address the risks:</li> <li>We obtained an understanding and evaluated the design and implementation of key controls in place in relation to the existence process of the sub-funds' financial assets at fair value through profit or loss by conducting a walkthrough of this process and reviewed the Administrator's controls report;</li> <li>We obtained direct independent confirmation from the Depositary of the investment</li> </ul>
	portfolio held at 30 September 2023 and agreed the amounts held to the accounting records.
	No issues were identified during the course of our audit work on this matter. No issues were identified during the course of our audit.

Significant matters identified (continued)

	tters identified (continued)	
Significant	Description of Significant Matter and Audit Response	
matter		
Valuation of	F Financial assets at FVTPL represent the principal element of the financial statements and are	
financial	analysed in note 1(b) and note 2(d). We considered the risk that the financial assets at FVTPL	
assets at fair	included in the Statement of Financial Position at 30 September 2023 are not valued at fair value	
value	in line with IFRS as adopted by the European Union.	
through		
profit or loss	Significant auditor's attention was deemed appropriate because of the materiality of the financial assets at FVTPL and the level of subjectivity in estimating the fair value of financial assets at FVTPL particularly those at Level 3 which involved using inputs that are not based on observable market data. In addition, this is one of the key areas on which our audit is concentrated as the valuation of investments is a key driver of the sub-funds' performance and net asset value. As a result, we considered this as key audit matter.	
	The following audit work has been performed to address the risks:	
	<ul> <li>We obtained an understanding and evaluated the design and implementation of key controls in place in relation to the valuation process of the sub-funds' financial assets at fair value through profit or loss by conducting a walkthrough of this process and reviewed the Administrator's controls report;</li> </ul>	
	<ul> <li>We tested the valuation of the investment portfolios by independently agreeing the valuation of investments to independent pricing source or third party vendors;</li> </ul>	
	<ul> <li>For Russian securities, we obtained an understanding of the methodology applied by the Investment Manager to estimate the fair value of the securities:</li> </ul>	
	<ul> <li>We challenged the valuation methodology used and whether it appropriately reflected the impact of restrictions on the trading of securities subject to sanctions in place.</li> </ul>	
	<ul> <li>Also, we engaged our internal valuation experts to review and challenge the overall methodology, key inputs and assumptions used in the valuation of the Russian securities including reasonability of liquidity discounts used in the valuation methodology; and</li> </ul>	
	• We assessed the valuation policy, fair value hierarchy classification and adequacy of related financial statements disclosures in accordance with the requirements of IFRS.	
	No issues were identified during the course of our audit work on this matter.	

# Other information

Other information comprises information included in the annual report, other than the financial statements and the auditor's report thereon, including the Directors' Report, the Investment Manager's Report, the Depositary's Report to the Shareholders, Statement of Portfolio Changes (Unaudited) and various Unaudited Supplementary Information to the annual report. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies in the financial statements, we are required to determine

## O Grant Thornton

# Independent auditor's report to the shareholders of FinEx Funds ICAV (continued)

#### Other information (continued)

whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

#### Matters on which we are required to report by the ICAV Act

- We have obtained all the information and explanations, which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the ICAV were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.
- In our opinion the information given in the Directors' report is consistent with the financial statements. Based solely on the work undertaken in the course of our audit, in our opinion, the Directors' report has been prepared in accordance with the requirements of the ICAV Act.

#### Matters on which we are required to report by exception

Under the ICAV Act we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by section 117 of the ICAV Act have not been made. We have no exceptions to report arising from this responsibility.

### Responsibilities of management and those charged with governance for the financial statements

As explained more fully in the Statement of Directors' Responsibilities section of Directors' report, management is responsible for the preparation of the financial statements which give a true and fair view in accordance with IFRS as adopted by the European Union, and for such internal control as they determine necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the ICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the ICAV or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the ICAV's financial reporting process.

#### Responsibilities of the auditor for the audit of the financial statements

The objectives of an auditor are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

## O Grant Thornton

# Independent auditor's report to the shareholders of FinEx Funds ICAV (continued)

#### Responsibilities of the auditor for the audit of the financial statements (continued)

A further description of our responsibilities for the audit of the financial statements is located on the Irish Auditing and Accounting Supervisory Authority's website at: <u>http://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description of auditors responsibilities for audit.pdf</u>. This description forms part of our auditor's report.

### Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. Owing to the inherent limitations of an audit, there is an unavoidable risk that material misstatement in the financial statements may not be detected, even though the audit is properly planned and performed in accordance with the ISAs (Ireland). The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

Based on our understanding of the ICAV and industry, we identified that the principal risks of noncompliance with laws and regulations related to compliance with Listing Rules of the Euronext Dublin, Central Bank of Ireland ("CBI") Acts, Sustainable Finance Disclosure Regulation ("SFDR") and Irish and EU Legislation, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the ICAV Act and Irish tax legislation. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to posting inappropriate journal entries to manipulate financial performance and management bias through judgements and assumptions in significant accounting estimates, in particular in relation to significant oneoff or unusual transactions. We apply professional scepticism through the audit to consider potential deliberate omission or concealment of significant transactions, or incomplete/inaccurate disclosures in the financial statement.

In response to these principal risks, our audit procedures included but were not limited to:

- enquiries of management on the policies and procedures in place regarding compliance with laws and regulations, including consideration of known or suspected instances of non-compliance and whether they have knowledge of any actual, suspected or alleged fraud;
- inspection of the ICAV's regulatory and legal correspondence and review of minutes of board meetings during the year to corroborate inquiries made;
- gaining an understanding of the ICAV's current activities, the scope of its authorisation and the effectiveness of its control environment;
- gaining an understanding of the internal controls established to mitigate risk related to fraud;
- discussion amongst the engagement team in relation to the identified laws and regulations and regarding the risk of fraud, and remaining alert to any indications of non-compliance or opportunities for fraudulent manipulation of financial statements throughout the audit;
- identifying and testing journal entries to address the risk of inappropriate journals and management override of controls;
- designing audit procedures to incorporate unpredictability around the nature, timing or extent of our testing;

### Orant Thornton

# Independent auditor's report to the shareholders of FinEx Funds ICAV (continued)

Responsibilities of the auditor for the audit of the financial statements (continued) Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud (continued)

- challenging assumptions and judgements made by management in their significant accounting estimates;
- review of the financial statement disclosures to underlying supporting documentation and inquiries of management; and
- engagement partner's assessment of the engagement team's collective competence and capabilities to identify or recognise non-compliance with the laws and regulation.

The primary responsibility for the prevention and detection of irregularities including fraud rests with those charged with governance and management. As with any audit, there remains a risk of non-detection or irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations or override of internal controls.

#### The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the ICAV's shareholders, as a body, in accordance with section 120 of the ICAV Act. Our audit work has been undertaken so that we might state to the ICAV's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the ICAV and the ICAV's shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

#### Report on other legal and regulatory requirements

We were appointed by the Board of Directors on 05 July 2023 to audit the financial statements for the year ended 30 September 2023. This is the first year we have been engaged to audit the financial statements of the ICAV.

We have not provided non-audit services prohibited by the IAASA's Ethical Standard and have remained independent of the entity in conducting the audit.

The audit opinion is consistent with the additional report to the board of directors.

David Lynch

\* Indicative NAV as at 30 September 2023. The impact of sanctions issued by the US, EU and UK in response to the Russian military incursion of Ukraine caused significant disruption to the management of funds and to markets in general. Market conditions in the Ruble foreign exchange market meant that the fund's FX hedge was no longer viable and could not be rolled forward. The disruption coupled with the combination of very large price declines in Russian corporate bonds and the significant devaluation of the Russian Ruble resulted in the reduction in asset value of the FinEx Tradable Russian Corporate Bond UCITS ETF to the extent that the RUB-Hedged Share Class's assets were completely eroded and the class was terminated on 17 January 2023. ^Excludes estimated contingent assets of approximately USD 6,989,373 relating to dividend payments (see note 15 for further details) and includes a 95% market prices write down (see note 1(b)(ii) for further details). (A) Fund suspended between 1 March 2022 and 8 August 2022. Cash and cash equivalents and redemption payable restated refer to note 1(v), 4(b) and note 19 for The accompanying notes form an integral part of these financial statements.

# Notes to the Financial Statements

#### 1. Significant Accounting Policies

The Board, in consultation with the Manager, the Investment Manager and the Depositary, having considered developments with the Ukraine/Russian Crisis and the exposure the Funds had to Russian securities or Ruble hedging decided to temporarily suspend all dealing on;

- FinEx Tradable Russian Corporate Bond UCITS ETF from 2 March 2022, and
- FinEx Russian RTS Equity UCITS ETF from 4 March 2022 to date.

The decision to suspend dealing was taken with the aim of ensuring the interests of all shareholders of the Funds were protected in view of the market impact of the extensive sanctions imposed by the US, EU and others, and by the decision of the Russian Central Bank to temporarily prohibit execution of orders by non-Russian residents to sell securities. The uncertainty meant that the ICAV was unable to establish a firm price for the Funds' holdings in Russian securities and unable to obtain settlement for any sale. There was also an impact of the settlement of FX forwards on Ruble hedging due to the impact of the crisis.

Due to the suspension of dealing on the 2 Sub-Funds, the financial statements are presented with indicative NAVs as at 30 September 2023.

#### (a) Basis of preparation

The financial statements for the financial year ended 30 September 2023 have been prepared on a going concern basis in accordance with IFRS as adopted by the EU and with the ICAV Act, the UCITS Regulations and the Central Bank UCITS Regulations.

The FinEx Russian RTS Equity UCITS ETF Fund and FinEx Tradable Russian Corporate Bonds UCITS ETF Fund suspended trading during the financial year ended 30 September 2022 and remain suspended as at 30 September 2023 (refer to note 21 for details). There is significant uncertainty as to the length of time of the suspension on the FinEx Russian RTS Equity UCITS ETF and the level of redemptions which may occur when the sub-funds become active again.

Nonetheless, the directors are of the view that the going concern assumption is supported through the Directors and management's intention to support both the FinEx Russian RTS Equity UCITS ETF Fund and the FinEx Tradable Russian Corporate Bonds UCITS ETF Fund, through sufficient financial resources and future business exposure. The Directors of the ICAV believe that the sub-funds have the ability to continue in operational existence for the foreseeable future and that there are no material uncertainties pertaining to the sub-funds and ICAV that would prevent their ability to continue in such operational existence for at least 12 months from approval of these financial statements. In reaching that view, the Directors and management have considered the impact of the current sanctions regime introduced following Russia's invasion of Ukraine in February 2022 on the sub-funds' financial and operational position. Absent the imposition of stricter sanctions and/or regulatory restrictions that would prohibit the sub-funds from holding investments in Russian stocks, the Board considers there is reasonable evidence to continue to adopt the going concern basis in preparing the accounts.

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at Fair Value Through Profit or Loss ("FVTPL"). The significant accounting policies are set out below.

#### Critical accounting estimates and assumptions

The preparation of financial statements in conformity with IFRS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates.

#### 1. Significant Accounting Policies (continued)

#### (a) Basis of preparation (continued)

#### Critical accounting estimates and assumptions (continued)

The Board of Directors makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. As at 30 September 2023 the financial statements are prepared using an indicative NAV for the following

- FinEx Tradable Russian Corporate Bond UCITS ETF and
- FinEx Russian RTS Equity UCITS ETF

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are outlined in note1(b)(ii) and 2(d) and relate to the determination of fair value of financial instruments with significant unobservable inputs.

#### Standards and amendments to existing standards effective 1 October 2022

The standards, amendments to standards or interpretations that are effective for the first time for the year beginning 1 October 2022 do not have a material effect on the financial statements of the ICAV.

#### New standards, amendments and interpretations effective after 1 October 2022 and have not been early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 October 2022 and have not been applied in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the ICAV.

#### (b) Financial assets and liabilities

#### (i) Classification, recognition and measurement

In accordance with IFRS 9, the Funds classify their financial assets and financial liabilities at initial recognition into the categories of financial assets and financial liabilities discussed below.

#### **Financial assets**

#### Financial assets measured at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Funds include in this category cash and cash equivalents, due from brokers, interest income receivable, dividends receivable, interest from financial assets at fair value through profit or loss receivable and other receivables.

#### Financial assets measured at FVTPL

Financial assets that are managed and whose performance is evaluated on a fair value basis are measured at FVTPL. This category includes all other financial assets including corporate bonds, common stock, treasury bills, exchange traded funds, government bonds and derivatives.

#### **Financial liabilities**

Financial liabilities are classified as measured at amortised cost or FVTPL.

#### Financial liabilities measured at FVTPL

Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the Statement of Comprehensive Income. This category includes derivative contracts in a liability position.

#### Financial liabilities measured at amortised cost

Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in the Statement of Comprehensive Income. Any gain or loss on derecognition is also recognised in the Statement of Comprehensive Income.

The Funds include in this category management fees payable, due to broker and other payables and liabilities.

### 1. Significant Accounting Policies (continued)

#### (b) Financial assets and liabilities (continued)

#### (i) Classification, recognition and measurement (continued)

The Funds recognise financial assets and financial liabilities on the date they become a party to the contractual provisions of the instrument, and all significant rights and access to the benefits from the assets, and the exposure to the risks inherent in those benefits, are transferred to the Funds.

A regular way purchase of financial assets is recognised using trade date accounting. From this date, any gains and losses, arising from changes in fair value of the financial assets or financial liabilities, are recorded.

Financial instruments are measured initially at fair value (transaction price) plus, in the case of a financial asset or financial liability not at FVTPL, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on financial assets and financial liabilities at FVTPL are expensed immediately.

Subsequent to initial recognition, all instruments classified at FVTPL are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income.

Financial liabilities, arising from the redeemable shares issued by the Funds, are carried at the redemption amount representing the shareholders' right to a residual interest in the relevant Fund's assets.

#### (ii) The estimation of fair value, after initial recognition, is determined as follows:

The Funds' financial instruments are carried at fair value on the Statement of Financial Position. The fair value of instruments traded in active markets is based on quoted market prices at the financial year end date.

In accordance with IFRS 13, the prices used to value the securities in the FinEx Russian RTS Equity UCITS ETF (the "Fund") are the closing prices on the Moscow Exchange on 30 September 2023 marked down by 95% to reflect the fact that the Fund does not have access to the principal market for these securities, namely the Moscow Exchange, due to sanctions issued by the Russian government. The Investment Manager, as the appointed Competent Person of the Fund, believes that the decision to mark-down the market prices by 95% in the Financial Statements is appropriate under the requirements of IFRS 13. The IFRS accounting standards require the Financial Statements to reflect the fact that the Fund cannot access the market and it is prudent, given the uncertainty as to when access will resume, to mark the prices down. The Fund is currently suspended for subscriptions and redemptions, a daily NAV is not being produced and trading on the Moscow Exchange is suspended. The Fund suspension is expected to remain in place until the Fund can once again freely trade the underlying holdings, at which point if trading is required by the Fund, it would be done on the Moscow Exchange at the prevailing market prices.

The prices used to value Russian corporate bonds are the evaluated prices as at 30 September 2023 and 30 September 2022 which have been obtained from third-party pricing services. Evaluated pricing is an approach that uses all available sources to generate prices for fixed income instruments. It will price instruments on a mark-to-market basis when that is possible and will use methodologies and models to produce a fair value when that's required. These models and inputs vary depending on fixed income type and may include but are not limited to current market conditions, terms and conditions of the issue, latest available prices, broker quotes, etc. The Investment Manager, as the appointed competent person of the Fund, believes the evaluated price is the best estimation of fair value in line with IFRS 13 at 30 September 2023 and 30 September 2022.

The Funds primarily invest in equities, corporate bonds, cash or cash equivalents, exchange traded funds, government bonds, forward currency contracts, future contracts and other over the counter ("OTC") derivative instruments.

#### 1. Significant Accounting Policies (continued)

#### (b) Financial assets and liabilities (continued)

#### (iii) Derecognition

A financial asset is derecognised when the contractual right to receive cash flows from the financial asset has expired or the Funds have transferred substantially all risks and rewards of ownership. A financial liability is derecognised when the obligation specified in the contract has been discharged, cancelled or expired.

# (c) Interest income, Interest Expense and Interest From Financial Assets at FVTPL/Interest Income Receivable and Interest From Financial Assets at FVTPL Receivable

Interest income is recognised in the Statement of Comprehensive Income as it accrues, using the original effective interest rate of the instrument calculated at the acquisition or origination date. Interest income includes interest from cash and cash equivalents. Interest expense is recognised on an accruals basis in line with the contractual terms. Interest is accrued on a daily basis. Interest earned whilst holding investment securities is reported as Interest from Financial Assets at FVTPL in the Statement of Comprehensive Income, whilst interest due to the Funds is reported as Interest from Financial Assets at FVTPL Receivable in the Statement of Financial Position.

#### (d) Foreign currency translation

### (i) Functional and presentation currency

Items included in the Funds' financial statements are measured using the currency of the primary economic environment in which they operate (the "functional currency"). The functional and presentation currency of FinEx Germany UCITS ETF is Euro ("EUR"). The functional and presentation currency of all the other Funds is United States Dollar ("USD").

The ICAV has adopted the USD as its presentation currency based on the economic environment in which the Funds operate, as the majority of the Funds' net assets attributable to redeemable participating shares are in USD.

#### (ii) Transactions and balances

Assets and liabilities denominated in currencies other than the functional currency are translated into the functional currency at the closing rate of exchange at each financial year end date. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial year end exchange rates of assets and liabilities denominated in foreign currencies are recognised in the Statement of Comprehensive Income.

#### (e) Redeemable participating shares

Redeemable participating shares are redeemable at the shareholder's option and are classified as financial liabilities.

#### (f) Fees and charges

Management fees are charged to the Statement of Comprehensive Income on an accruals basis. Please see Note 10 for details of management fees.

#### (g) Gains/(losses) on investments

Realised gains/(losses) on disposal of investments during the financial year and unrealised gains/(losses) on valuation of investments held at the financial year end are dealt with in the net gains/(losses) on financial assets and liabilities at FVTPL in the Statement of Comprehensive Income.

Net gains/losses on financial assets and liabilities at FVTPL includes discounts for debt securities, which is the difference between the face value and the original cost, including original issue discount.

#### (h) Cash flows

The Funds have prepared a Statement of Cash Flows using the direct method, whereby major classes of cash receipts and payments related to operating and financing activities are disclosed.

#### 1. Significant Accounting Policies (continued)

#### (i) Derivatives

A derivative is an instrument whose value is derived from an underlying instrument, index reference rate or a combination of these factors. Derivative instruments may be privately negotiated contracts which are often referred to as OTC derivatives or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments or commodities at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount.

Derivative contracts are stated at fair value and recognised as assets or liabilities on the Statement of Financial Position. Gains/(losses) resulting from the change in the fair value are reflected on the Statement of Comprehensive Income as a component of net gains/(losses) on financial assets and liabilities at FVTPL. Realised gains/(losses) are recorded on termination or from periodic cash flow payments. The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the reporting date. The fair value of financial assets and liabilities referred to as OTC derivatives are based on the valuation received from the counterparty at the close of trading at the reporting date.

#### (j) Futures Contracts

Futures contracts provide for the future sale by one party and purchase by another party of a specified amount of a reference instrument at a specified price and date. Entering into a contract to buy a reference instrument is commonly referred to as buying a contract or holding a long position in the asset. Entering into a contract to sell a reference instrument is commonly referred to as selling a contract or holding a short position in the reference instrument. The fair value of open future contracts is calculated as the difference between the contracted rate and the current rate that would close out the contract on the financial year end date. The futures contracts are marked to market daily based upon quotations from market makers. Unrealised gains/(losses) on futures, if any, are included under financial assets/liabilities at fair value through profit or loss on the Statement of Financial Position and are shown in the Portfolio Listing. When the contract is terminated, a Fund will recognise a realised gain or loss in the Statement of Comprehensive Income equal to the difference between the value of the contract at the time it was closed.

#### (k) Forwards

Forward currency contracts are fair valued at the prevailing forward rate at the reporting date. The resulting unrealised gains/(losses) are included in the Statement of Financial Position under financial assets/liabilities at FVTPL and the Statement of Comprehensive Income.

#### (l) Dividend income and dividend receivable

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex dividend". Income is shown gross of any non-recoverable withholding tax, which is disclosed separately in the Statement of Comprehensive Income, and net of any tax credits. Dividend receivable is recognised in the Statement of Financial Position and represents the contractual amounts due to a Fund at financial year end.

#### (m) Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the end of the reporting year. Please see Note 2(d) Fair value for details of transfers between levels, if any.

#### (n) Cash and Cash Equivalents

Cash comprises of cash on hand and demand deposits and bank overdrafts. Cash equivalents (which include Money Market funds), if any, are short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to insignificant changes in value. Bank overdrafts, if any, are shown separately as liabilities in the Statement of Financial Position.

Restricted cash as at 30 September 2023 and 30 September 2022 pertains to cash held at the collection account earmarked for redemption of shareholders, refer to note 4(b) and note 19 for details.

#### 1. Significant Accounting Policies (continued)

### (o) Due from/to Brokers

Amounts due from/to broker represent payables for securities purchased and receivables for securities sold that have been contracted for but not yet delivered by the financial year end. These amounts are recognised initially at fair value and subsequently measured at amortised cost, less provision for impairment for amounts due from brokers. A provision for impairment of amounts due from brokers is established when there is objective evidence that a Fund will not be able to collect all amounts due from the relevant broker. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default on payments are considered indicators that the amount due from brokers is impairment loss, interest income is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. There was no impairment loss in the current or prior financial year.

#### (p) Offsetting

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Refer to Note 18 for details in respect of offsetting and presentation in the financial statements.

#### (q) Margin cash

Cash collateral, if any, provided by/payable to the Funds in relation to futures contracts is identified in the Statement of Financial Position as Margin Cash and is not included as a component of cash and cash equivalents.

#### (r) Cross Fund Investments

The Funds may invest in other collective investment schemes established as ETFs in pursuit of their investment objective, subject to the investment restrictions outlined in the prospectus, including other Funds of the ICAV. As at 30 September 2023, FinEx Global Equity UCITS ETF held 991,040 (30 September 2022: 991,040) shares in FinEx Russian RTS Equity UCITS ETF, which represented 0.00% (30 September 2022: 0.00%) of the Net Assets of the FinEx Global Equity UCITS ETF.

#### (s) Money market funds

The Funds may invest in money market funds which are subject to daily dealing and which have and maintain a credit rating of AAA or equivalent. Where a Fund invests in money market funds, those instruments may be valued at the last available net asset value per share as advised by the fund or on an amortised cost basis which approximates their fair market value. Money market funds are categorised within cash equivalents in the Statement of Financial Position.

#### (t) Due from/to Shareholders

Amounts due to or from shareholders represent redemptions or subscriptions where the shares have been redeemed or subscribed by the shareholder, but as at Statement of Financial Position date the cash has not been paid or received.

### (u) Contingent Assets, Contingent Liabilities and Commitments

Contingent assets are possible assets whose existence will be confirmed by the occurrence or non-occurrence of uncertain future events that are not wholly within the control of the ICAV. Contingent assets are not recognised, but they are disclosed when it is more likely than not that an inflow of benefits will occur. However, when the inflow of benefits is virtually certain an asset is recognised in the statement of financial position because that asset is no longer considered to be contingent.

IAS 37 Provisions, Contingent Liabilities and Contingent Assets (which is a part of IFRS adopted by the International Accounting Standard Board) outlines the accounting for provisions (liabilities of uncertain timing or amount), together with contingent assets (possible assets) and contingent liabilities (possible obligations and present obligations that are not probable or not reliably measurable), refer to note 15 for details.

### (v) Restatement of Comparative Information

Comparatives have been restated to reflect an additional cash balance and an offsetting payable amount of USD 1,288,858 in respect of an unsettled redemption as at 30 September 2022. The redemption instruction was processed in February 2022, however it was cancelled on 8 February 2024 due to the inability of the Authorized Participant/Broker to deliver the ETF units.

# FinEx Funds ICAV Annual Report and Audited Financial Statements for the financial year ended 30 September 2023

# Notes to the Financial Statements (continued)

#### 2. Financial Risk Management

#### Investment strategy

Sanarus Investment Management LLP (the "Investment Manager") acts as the Investment Manager to the ICAV and Funds pursuant to the Investment Management Agreement.

The detailed investment objectives and policies of each Fund are set out in the prospectus and relevant Supplement.

In order to achieve the investment objectives, the Funds seek to track the performance of their reference index or replicate the reference index or invest in securities similar in nature to the components of the reference index. The Investment Manager having due regard to the best interests of the Funds and to prevailing market conditions will determine which investment policies to follow at any given time and shall invest all or substantially all of the net proceeds of any issue of shares.

In pursuing the investment objectives, the Funds are exposed to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk that could result in a reduction in the Funds' net assets. The Funds' overall risk management policy focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Funds' financial performance.

The nature and extent of the financial instruments held at the reporting date and the risk management policies employed by the Funds are discussed below.

#### (a) Market risk

At 30 September 2023 and 30 September 2022, the Funds' market risk was affected by three main components: changes in actual market prices, interest rates and foreign currency movements.

#### (i) Market price risk

Market price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The Funds are susceptible to market price risk arising from uncertainties about future prices of the instruments.

The Investment Manager seeks to moderate market price risk within the Funds by adhering to the investment restrictions outlined in the UCITS Regulations. These investment restrictions ensure that the Funds are appropriately diversified and not overly concentrated within particular investments. The asset allocation criteria used by the Investment Manager also ensures that the assets within the Funds are invested across different economic zones. The Funds calculate their Global Exposure using the Commitment Approach in accordance with the Central Bank's rules. This approach converts the Funds' financial derivative instruments positions into the equivalent positions of the underlying assets and seeks to ensure that each Funds' risk is monitored in terms of any future "commitments" to which it is (or may be) obligated.

As at 30 September 2023 and 30 September 2022 the overall market exposures were as follows:

	Fair Value 2023	% of net assets at Fair Value 2023	Fair Value 2022	% of net assets at Fair Value 2022
FinEx Tradable Russian Corporate Bonds UCITS ETF* Investments at fair value	USD 31,696,034	97.86%	USD 22,544,682	93.68%
<b>FinEx Germany UCITS ETF</b> Investments at fair value	EUR 46,663,324	99.95%	EUR 37,515,080	99.93%
<b>FinEx USA UCITS ETF</b> Investments at fair value	USD 213,763,884	99.88%	USD 177,077,785	99.86%

\*Indicative NAV as at 30 Sept. 2023 and 30 Sept. 2022 Excludes estimated contingent assets of approximately USD 4,787,862 relating to accrued interest income (30 September 2022: USD 1,130,424) see note 15 for further details.

FinEx Blockchain UCITS ETF	USD 71,384	USD 78,090

\* Indicative NAV as at 30 September 2023 and 30 September 2022.

#### (ii) Interest rate risk

Interest rate risk is the risk due to fluctuations in the prevailing levels of market interest rates, which would cause the fair value of the assets and liabilities to fluctuate accordingly. The Funds did not employ leverage and did not borrow for liquidity purposes during the financial year ended 30 September 2023 or 30 September 2022. The Funds exposed to interest rate risk during the financial year were FinEx Tradable Russian Corporate Bonds UCITS ETF, FinEx Cash Equivalents UCITS ETF, FinEx Fallen Angels UCITS ETF and FinEx US TIPS UCITS ETF. Excess cash is invested in instantly accessible accounts at prevailing interest rates. The Funds' cash balances are not subject to significant interest rate risk.

The Investment Manager manages interest risk within the investment portfolios by ensuring the duration of the portfolio closely matches the duration of each Fund's index.

#### 2. Financial Risk Management (continued)

#### (a) Market risk (continued)

#### (ii) Interest rate risk (continued)

The following tables below and overleaf summarise each Fund's exposure to interest rate risks. Included in the table are the Fund's assets and liabilities at fair values, categorised by the earlier of contractual re-pricing or maturity dates:

#### 2. Financial Risk Management (continued)

#### (a) Market risk (continued)

#### (ii) Interest rate risk (continued)

The following table details the approximate increase or decrease in net assets attributable to holders of redeemable participating shares due to a 1% (1% is considered to be a reasonable possible change in market interest rates) change in market interest rates:

	As at 30 September 2023 USD	As at 30 September 2022 USD
FinEx Cash Equivalents UCITS ETF <sup>(A)</sup>	789,156	765,813
FinEx Fallen Angels UCITS ETF <sup>(C)</sup>	95,795	90,101
FinEx US TIPS UCITS ETF <sup>(D)</sup>	148.967	148,302

<sup>(A)</sup> Fund suspended between 1 March 2022 and 8 August 2022. Cash and cash equivalents and redemption payable restated refer to note 1(v), 4(b) and note 19 for details.

<sup>(C)</sup> Fund suspended between 2 March 2022 and 6 June 2022.<sup>(D)</sup> Fund suspended between 1 March 2022 and 6 June 2022.

As FinEx Tradable Russian Corporate Bond UCITS ETF was suspended from 2 March 2022, additional sensitivity analysis is provided. The following table details the approximate increase or decrease in net assets attributable to holders of redeemable participating shares due to a 30%, 50% and 100% change in market interest rates:

	As at	As at
	30 September 2023	30 September 2022
	USD	USD
30% would equal	9,681,863	6,934,832
50% would equal	16,136,439	11,558,053
100% would equal	32,272,878	23,116,105

The above interest rate sensitivity information is a relative estimate of risk and is not intended to be a precise and accurate number. The calculations are based on historical data. Future interest rate movements and correlations between securities could vary significantly from those experienced in the past.

#### (iii) Currency risk

Currency risk is the risk that the value of a Fund's net assets will fluctuate due to changes in foreign currency rates.

The Funds can hold securities denominated in currencies other than their respective functional currencies and presentational currencies. They can therefore be exposed to currency risk, as the value of the securities denominated in other currencies will fluctuate due to changes in the exchange rates.

The Investment Manager outsources the management of currency risk in their currency hedged portfolios to Citi Depositary Services Ireland and Citibank. The Investment Manager defines rules with the provider and monitors the implementation via daily reports.

The following tables below and overleaf show the currency risk exposure to the Funds as at 30 September 2023 and 30 September 2022. FinEx Germany UCITS ETF, FinEx USA UCITS ETF, FinEx USA Information Technology UCITS ETF, FinEx Cash Equivalents UCITS ETF, FinEx Fallen Angels UCITS ETF, FinEx US TIPS UCITS ETF and FinEx US REIT UCITS ETF were not subject to foreign currency risk as at 30 September 2023 and FinEx Germany UCITS ETF, FinEx USA UCITS ETF, FinEx USA Information Technology UCITS ETF, FinEx Cash Equivalents UCITS ETF, FinEx USA UCITS ETF, FinEx USA Information Technology UCITS ETF, FinEx Cash Equivalents UCITS ETF, FinEx Fallen Angels UCITS ETF, FinEx USA Information Technology UCITS ETF, FinEx Cash Equivalents UCITS ETF, FinEx Fallen Angels UCITS ETF, FinEx USA Information Technology UCITS ETF, FinEx Cash Equivalents UCITS ETF, FinEx Fallen Angels UCITS ETF, FinEx USA Information Technology UCITS ETF, FinEx Cash Equivalents UCITS ETF, FinEx Fallen Angels UCITS ETF, FinEx USA Information Technology UCITS ETF, FinEx Cash Equivalents UCITS ETF, FinEx Fallen Angels UCITS ETF, FinEx USA Information Technology UCITS ETF, FinEx Cash Equivalents UCITS ETF, FinEx Fallen Angels UCITS ETF, FinEx USA Information Technology UCITS ETF, FinEx Cash Equivalents UCITS ETF, FinEx Fallen Angels UCITS ETF, FinEx USA Information Technology UCITS ETF, FinEx Cash Equivalents UCITS ETF, FinEx Fallen Angels UCITS ETF, FinEx USA Information Technology ICITS ETF were not subject to foreign currency risk as at 30 September 2022:

## 2. Financial Risk Management (continued)

### (b) Credit risk

Credit risk is the risk that a counterparty or issuer will be unable to meet a commitment it has entered into with the Funds.

The ICAV is exposed to credit risk on parties with whom it trades and bears the risk of settlement default. Depending on the requirements of the jurisdictions in which the investments of the Funds are issued, the Depositary may use the services of one or more sub-custodians. Bankruptcy or insolvency of the Depositary may cause the ICAV's rights with respect to securities held to be delayed. There are also risks involved in dealing with custodians or brokers who settle trades with regard to the segregation of assets. It is expected that all securities and other assets deposited with custodians or brokers will be clearly identified as being assets of the ICAV; the ICAV should not therefore be exposed to a credit risk with respect to such parties. However, it may not always be possible to achieve this segregation, so the portfolio of the ICAV may experience increased exposure to credit risk associated with the applicable custodians or brokers.

The Depositary held an  $A^+$  rating from the rating agency Standard and Poor's as at 30 September 2023 (30 September 2022:  $A^+$ ). The Depositary is responsible for the safe keeping of the assets of the ICAV and Funds. The Depositary may, however, appoint any person or persons to be the sub-custodian of such assets but any liability of the Depositary shall not be affected by the fact that it has entrusted some or all of the assets in its safekeeping to any third party.

In order to reduce its net counterparty risk exposure, the ICAV may in relation to any of its Funds avail itself of all mitigation techniques such as netting and financial collateral techniques which are or may become authorised by the UCITS Regulations. In particular, the ICAV may reduce the overall counterparty risk of each Fund's OTC derivatives by requiring the counterparty to deliver collateral (which will comply with the requirements of the Central Bank) to the Depositary (or as otherwise permitted by the Central Bank). Such collateral will be enforceable by the ICAV at all times and will be marked to market on a daily basis. The amount of collateral to be delivered will be at least equal to the value by which the overall exposure limit as determined pursuant to the UCITS Regulations has been exceeded.

All counterparties are approved before the ICAV's Investment Manager may deal with them.

In addition to the above, the Investment Manager manages the credit risk on a daily basis and provides the Directors with an update each quarter. Any credit risk issues are discussed quarterly with Directors and monitored thereafter.

For these reasons, the Investment Manager considers that the risk that counterparties would fail to discharge their obligations to the Funds is low.

Other than as outlined above, there were no significant concentrations of credit risk to counterparties at 30 September 2023 and 30 September 2022.

#### 2. Financial Risk Management (continued)

### (b) Credit risk (continued)

As at 30 September 2023 and 30 September 2022, the ICAV was invested in debt securities with the following credit rating per Standard and Poor's and Moody's:

FinEx Tradable Russian Corporate Bonds UCITS ETF Portfolio by rating category	As at 30 September 2023	As at 30 September 2022
B and above	WR*	WR*
FinEx Cash Equivalents UCITS ETF Portfolio by rating category B and above	100%	100%
FinEx Fallen Angels UCITS ETF	10070	10070
Portfolio by rating category		
B and above	100%	100%
FinEx US TIPS UCITS ETF Portfolio by rating category		
B and above	100%	100%

\*WR – Withdrawn. Both Standard & Poor's and Moody's withdrew from providing ratings to Russian Corporate Bonds as a consequence of sanctions imposed on Russia following its invasion of Ukraine.

#### (c) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The ICAV is exposed to daily cash redemptions of redeemable participating shares.

The Investment Manager monitors the Funds' liquidity position on a daily basis. The Investment Manager reviews the current and future forecasted liquidity position of the Funds on a daily basis and ensures that any cash required to meet the settlement of redemption requests is generated as appropriate.

The ICAV is entitled to limit the number of shares of a Fund redeemed on any dealing day to shares representing not more than 10% of the Net Asset Value of that Fund on that dealing day. In this event, the limitation will apply pro rata, so that all shareholders wishing to redeem their shareholding in that Fund on the relevant dealing day will realise the same proportion of their redemption request. Shares not redeemed but which would otherwise have been redeemed, will be carried forward for repurchase on the next dealing day and will be dealt with in priority (on a pro rata basis as detailed above) to redemption requests received subsequently. If requests for redemptions are so carried forward, the Administrator will inform the shareholders affected.

The Instrument of Incorporation contains special provisions with respect to a redemption request received from a Shareholder which would result in Shares representing more than 5% of the Net Asset Value of any Fund being redeemed by the ICAV on any Dealing Day. In such a case the ICAV, at the discretion of the Directors (and with the Shareholder's consent, unless the original subscription was made in specie) may satisfy the redemption request in whole or in part by a distribution of investments of the relevant Fund in specie, provided that such a distribution would not be prejudicial to the interests of the remaining Shareholders of that Fund.

The ICAV may at any time temporarily suspend the calculation of the Net Asset Value of any Fund and the subscription, redemption or exchange of Shares and the payment of repurchase proceeds of any Class.

#### 2. Financial Risk Management (continued)

#### (c) Liquidity risk (continued)

Even though the Shares are to be listed on one or more Relevant Stock Exchanges, there can be no certainty that there will be liquidity in the Shares on any Relevant Stock Exchange or that the market price at which the Shares may be traded on a Relevant Stock Exchange will be the same as or approximately equal to the Net Asset Value per Share. However, as the Shares may be dealt in by means of subscription and redemption, the Directors consider that large discounts or premiums in the Net Asset Value of a Fund would not be sustainable. There can be no guarantee that once the Shares are listed on a Relevant Stock Exchange they will remain listed or that the conditions of listing will not change.

Trading in Shares on a Relevant Stock Exchange, or the requirement for market makers to make two way prices on a Relevant Stock Exchange, may be halted or suspended due to market conditions, or because the Relevant Stock Exchange considers that trading in the Shares is inadvisable, or the discontinuance in the calculation or publication of the Reference Asset or a component thereof, or otherwise pursuant to the Relevant Stock Exchange's rules. If trading on a Relevant Stock Exchange is halted or suspended, investors in Shares may not be able to sell their Shares until trading resumes however such investors should be able to apply to the ICAV to redeem Shares.

The Funds have the ability to borrow in the short term to ensure settlement. The ICAV's Prospectus allows for borrowing up to 10% of a Fund's net assets at any time and the Depositary may charge the assets of the Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes.

The following tables below and overleaf analyse the Funds' financial liabilities into relevant maturity groupings based on the remaining period at financial year end to the contractual maturity date:

#### 2. Financial Risk Management (continued)

#### (d) Fair value

The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted closing mid prices at the close of trading on the financial year end date in accordance with IFRS 13, 'Fair value measurement'.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13 requires the Funds to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels:

- Listed prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Funds. The Funds consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following tables below and overleaf show financial assets and liabilities measured at fair value within Levels 1, 2 and 3 as at 30 September 2023 and 30 September 2022:

\*\*\* Excludes estimated contingent assets of approximately USD 42,417 (30 September 2022: nil) relating to dividend payments on Russian securities that are currently held in Moscow, Russia due to Russian government restrictions.

#### 2. Financial Risk Management (continued)

#### (d) Fair value (continued)

#### **Level 3 Investments**

On 24 February 2022, Russia invaded Ukraine in a major escalation of the Russo-Ukrainian War, which began in 2014 leading to increased economic and political uncertainty causing significant volatility in certain financial markets, currency markets and commodities markets worldwide. In addition, economic sanctions imposed on Russia in response to its invasion of Ukraine are impacting and will likely continue to impact companies worldwide operating in a wide variety of sectors, including energy, financial services and defense, amongst others.

As a result, trading in the shares of the following funds has been suspended:

a) FinEx Tradable Russian Corporate Bond UCITS ETF suspended from 2 March 2022

Valuation of these securities is based on available information from third-party pricing services. These securities are classified as Level 3 in the fair value hierarchy as the price quotations obtained take into account both observable inputs and significant unobservable inputs, due to the infrequent level of trading of these securities, restrictions in place on the underlying issuers of the securities and the limited number of market vendors trading in these securities. Management has not made any adjustments to the prices obtained from third parties.

The prices used to value Russian Corporate Bonds are the evaluated prices as at 30 September 2023 and 30 September 2022 which have been obtained from third-party pricing services. Evaluated pricing is an approach that uses all available sources to generate prices for fixed income instruments. It will price instruments on a mark-to-market basis when that is possible and will use methodologies and models to produce a fair value when that is required. These models and inputs vary depending on fixed income type and may include but are not limited to current market conditions, terms and conditions of the issue, latest available prices, broker quotes, etc. The Investment Manager, as the appointed Competent Person of the Fund, believes the evaluated price is the best estimation of fair value in line with IFRS 13 at 30 September 2023 and 30 September 2022.

Sensitivity to changes in unobservable input:

- If 5% liquidity discount applied there would be a reduction in financial assets and liabilities at fair value through profit or /loss of USD 1,381,407 (30 September 2022: USD 938,070)
- If 10% liquidity discount applied there would be a reduction in financial assets and liabilities at fair value through profit or /loss of USD 2,762,134 (30 September 2022: USD 1,876,140)

The above summarises the sensitivity that changes in discount factors would have on financial assets and liabilities at fair value through profit or loss. The sensitivity analyses are based on a change in applying a discount factor while holding all other assumptions constant.

## FinEx Funds ICAV Annual Report and Audited Financial Statements for the financial year ended 30 September 2023

## Notes to the Financial Statements (continued)

#### 2. Financial Risk Management (continued)

#### (d) Fair value (continued)

#### Level 3 Investments (continued)

b) FinEx Russian RTS Equity UCITS ETF suspended from 4 March 2022 to date.

The events have also led to the classification of the investments in Russian equities and Russian Corporate Bonds as Level 3 in the fair value hierarchy.

The below table is a reconciliation of the financial assets at fair value through profit or loss based off market prices obtained from the Moscow Exchange reconciled to the fair value in the financial statements which reflects a 95% liquidity discount factor (a significant unobservable input):

FinEx Russian RTS Equity UCITS ETF	30 September 2023 USD	30 September 2022 USD
Financial assets at fair value through profit or loss based off market prices obtained from the official exchange (Moscow Exchange)	56,193,818	57,370,972
Market price write down due to not being able to access local market (liquidity discount)	(53,384,495)	(54,502,423)
Financial assets at fair value through profit or loss (taking into account market price write down)	2,809,323	2,868,549

Sensitivity to changes in unobservable input (liquidity discount):

- If 80% liquidity discount applied there would be an increase in financial assets at fair value through profit or loss of USD 8,429,131 (30 September 2022: USD 8,605,646).
- If 100% liquidity discount applied there would be a reduction in financial assets at fair value through profit or loss of USD 2,809,323 (30 September 2022: USD 2,868,549).

The above summarises the sensitivity that changes in the liquidity discount factor would have on financial assets at fair value through profit or loss. The sensitivity analyses are based on a change in the applied discount factor while holding all other assumptions constant.

#### Assets and liabilities not carried at fair value but for which fair value is disclosed

For assets and liabilities carried at amortised cost; their carrying values are a reasonable approximation of fair value.

#### **Capital Risk Management**

The capital of the Funds is represented by the net assets attributable to the holders of redeemable participating shares. The amount of net assets attributable to the holders of redeemable participating shares can change significantly on a daily basis, as the Funds are subject to daily subscriptions and redemptions at the discretion of the shareholders, as well as changes resulting from the Funds' performance. The Funds' objective when managing capital is to safeguard their ability to continue as a going concern in order to provide returns for the shareholders and maintain a strong capital base to support the development of the investment activities of the Funds.

In order to maintain or adjust the capital structure, the Funds' policy is to perform the following:

• Monitor the level of daily subscriptions and redemptions relative to the assets they expect to be able to liquidate within a day.

• Redeem and issue new shares in accordance with the constitutional documents of the Funds, which include the ability to restrict redemptions and require certain minimum and subscriptions. Further details on these restrictions are outlined in the Supplement to the Prospectus of each of the Funds.

The Investment Manager monitors capital on the basis of the value of net assets attributable to the redeemable participating shareholders.

<sup>(D)</sup> Fund suspended between 1 March 2022 and 6 June 2022.

\*Indicative NAV as at 30 Sept. 2023 and 30 Sept. 2022 Excludes estimated contingent assets of approximately USD 6,989,373 (30 September 2022 USD: 1,178,844) see note 15 for further details.

\*\*Indicative NAV as at 30 Sept. 2023 and 30 Sept. 2022 Excludes estimated contingent assets of approximately USD 4,787,862 relating to accrued interest income (30 September 2022: USD 1,130,424) see note 15 for further details.

\*\*\* Excludes estimated contingent assets of approximately USD 42,417 (30 September 2022: nil) relating to dividend payments on Russian securities that are currently held in Moscow, Russia due to Russian government restrictions.

#### 4. (b) Restricted Cash

Restricted cash, in contrast to unrestricted cash (cash and cash equivalents) is not freely available for a sub fund to spend or invest. Restricted cash of USD 1,288,858 resulted due to an unsettled redemption on the FinEx Cash Equivalents UCITS ETF as at 30 September 2022. The redemption instruction was processed in February 2022, however remained unsettled due to the inability of the Authorized Participant/Broker to deliver the ETF units.

	As at 30 September 2023	As at 30 September 2022
FinEx Cash Equivalents UCITS ETF <sup>(A)</sup>	USD 1,820,771	USD 1,288,858

 $^{(A)}$  Fund suspended between 1 March 2022 and 8 August 2022. Cash and cash equivalents and redemption payable restated refer to note 1(v) and note 19 for details.

#### 5. Share Capital

The Authorised Share Capital of the ICAV is 2 subscriber shares of  $\in 1$  each and 1,000,000,000 participating Shares of no par value. There are no rights of pre-emption attached to the shares.

In accordance with the objectives listed in the ICAV Overview and in the risk management policies in Note 2 to the annual financial statements, the ICAV strives to invest the subscriptions of redeemable shares in appropriate investments, while maintaining sufficient liquidity to meet shareholder redemptions. During the financial years ended 30 September 2023 and 30 September 2022, the number of redeemable shares issued and fully paid were as follows:

	As at 1 October 2022	Redeemable Shares Issued	Redeemable Shares Redeemed	As at 30 September 2023
<b>FinEx Tradable Russian Corporate Bonds UCITS ETF*</b> RUB Shares (Hedged share class) USD Shares	160,534,300 68,063,200		160,534,300	68,063,200
<b>FinEx Germany UCITS ETF</b> EUR Shares	144,900,000	_	-	144,900,000
FinEx USA UCITS ETF USD Shares	275,000,000	-	-	275,000,000
FinEx USA Information Technology UCITS ETF USD Mini Shares USD Shares	27,250,000 1,333,800	-	-	27,250,000 1,333,800
FinEx China UCITS ETF USD Shares	4,727,000	_	_	4,727,000
<b>FinEx Cash Equivalents UCITS ETF</b> RUB Shares (Unhedged share class) USD Shares	1,671,000 23,890,000			1,671,000 23,890,000
FinEx Russian RTS Equity UCITS ETF* USD Shares	165,250,000	_	_	165,250,000

\*The impact of sanctions issued by the US, EU and UK in response to the Russian military incursion of Ukraine caused significant disruption to the management of funds and to markets in general. Market conditions in the Ruble foreign exchange market meant that the fund's FX hedge was no longer viable and could not be rolled forward. The disruption coupled with the combination of very large price declines in Russian corporate bonds and the significant devaluation of the Russian Ruble resulted in the reduction in asset value of the FinEx Tradable Russian Corporate Bond UCITS ETF to the extent that the RUB-Hedged Share Class's assets were completely eroded and the class was terminated on 17 January 2023.

\* Indicative NAV as at 30 September 2023 and 30 September 2022.

\*\*\* Excludes estimated contingent assets of approximately USD 42,417 (30 September 2022: nil) relating to dividend payments on Russian securities that are currently held in Moscow, Russia due to Russian government restrictions.

#### 7. Securities Lending

There was no securities lending activity during the financial years ended 30 September 2023 and 30 September 2022.

#### 8. Efficient Portfolio Management

The Funds may invest in financial derivative instruments for investment and efficient portfolio management purposes, where applicable.

The ICAV may also (for the purposes of efficient portfolio or cash management and not for investment purposes), invest in cash deposits, money market instruments, OTC options on the components of the reference indices and units of UCITS regulated money market collective investment schemes.

Each Fund may enter into hedging transactions on currencies to protect against a decline in the value of investments denominated in currencies other than its functional currency, and against any increase in the cost of investments denominated in currencies other than its functional currency.

#### **Forward Foreign Currency Contracts**

Forward foreign currency contracts can be used to hedge out unwanted currency exposures and to limit the Funds' exposure to anticipated changes in exchange rates. Where appropriate, they are also used to achieve the portfolio characteristics that assist the ICAV in meeting its investment objectives.

#### 8. Efficient Portfolio Management (continued)

#### **Open Exchange Traded Future Contracts**

Open exchange traded future contracts are contractual obligations to buy or sell financial instruments on a future date at a specified price established in an organised market. The future contracts are collateralised by cash or marketable securities; changes in the futures contracts value are settled daily with the exchange. Open exchange traded future contracts are settled on a net basis. None of the Funds used financial derivative instruments during the financial year ended 30 September 2023.

#### 9. Related Parties

Parties are considered related if one party has the authority to control the other party or exercise significant influence over the other party in making financial or other reporting decisions.

The following transactions which are deemed related parties transactions were entered into during the financial year by the ICAV in the ordinary course of business and on normal commercial terms.

Mr. Simon Luhr is a partner of the Investment Manager, Sanarus Investment Management LLP and majority beneficial owner of the FinEx Group of Companies, and does not receive a fee for his service to the ICAV. Mr. Tom Murray and Mr. Jeremy O'Sullivan received a combined fee of USD 47,645 (EUR 45,000) (30 September 2022: USD 44,084 (EUR 45,000)), for the financial year ended 30 September 2023, which is paid by FinEx ETF Limited (the "Distributor").

Sanarus Investment Management LLP held no shares in the ICAV as at 30 September 2023 (30 September 2022: Nil).

During the financial year, the Distributor, FinEx ETF Limited, earned fees of USD 7,527,856 (30 September 2022: USD 8,376,948) of which USD 1,430,131 (30 September 2022: USD 823,394) was payable at the financial year end. The Distributor pays the Investment Manager out of the management fee as outlined in Note 10.

FinEx Global Equity UCITS ETF held 991,040 shares in FinEx Russian RTS Equity UCITS ETF as at 30 September 2023 (30 September 2022: 991,040 shares in FinEx Russian RTS Equity UCITS ETF); this holding represented 0.60% (30 September 2022: 0.60%) of FinEx Russian RTS Equity UCITS ETF.

#### 10. Fees and Expenses

During the financial years ended 30 September 2023 and 30 September 2022, the ICAV paid a management fee to the Distributor as a single flat fee, the Total Expense Ratio ("TER"), which was capped as follows:

	<b>EUR Share Class</b>	<b>RUB Share Class</b>	<b>USD Share Class</b>
FinEx Tradable Russian Corporate Bonds UCITS ETF	-	0.95%	0.50%
FinEx Germany UCITS ETF	0.90%	-	-
FinEx USA UCITS ETF	-	-	0.90%
FinEx USA Information Technology UCITS ETF	-	-	0.90%
FinEx China UCITS ETF	-	-	0.90%
FinEx Cash Equivalents UCITS ETF	-	0.49%	0.20%
FinEx Russian RTS Equity UCITS ETF	-	-	0.90%
FinEx Global Equity UCITS ETF	-	1.36%	1.36%
FinEx Developed Markets ex-USA UCITS ETF	-	-	0.90%

## FinEx Funds ICAV Annual Report and Audited Financial Statements for the financial year ended 30 September 2023

## Notes to the Financial Statements (continued)

#### 10. Fees and Expenses (continued)

	EUR Share Class	<b>RUB Share Class</b>	<b>USD Share Class</b>
FinEx Fallen Angels UCITS ETF	-	0.70%	0.60%
FinEx US TIPS UCITS ETF	-	0.35%	0.25%
FinEx Video Gaming and eSports UCITS ETF	-	-	0.90%
FinEx US REIT ETF	-	-	0.60%
FinEx Emerging Markets ex-Chindia UCITS ETF	-	-	0.70%
FinEx Blockchain UCITS ETF	-	-	0.80%

The Investment management fees for Funds are paid out of the TER by the Distributor to the Investment Manager in accordance with the prospectus and supplements of the sub-funds.

All other expenses are paid out of the TER by FinEx ETF Limited. These expenses included Directors fees of USD 47,645 (EUR 45,000) (30 September 2022: USD 44,084 (EUR 45,000) in respect of Independent Directors for the financial year, total manager fees of USD 114,210 (EUR 107,872) (30 September 2022: USD 119,202 (EUR 111,458)), audit fees of USD 68,820 (30 September 2022: USD 79,453) and depositary fees of USD 211,582 (30 September 2022: USD 124,426).

#### 11. Exchange Rates

The following exchange rates were used to convert foreign currency investments and other assets and liabilities to the functional currency of the Funds:

One US Dollar equates to the following foreign currency amounts:

	As at 30 September 2023	As at 30 September 2022

Turkish lira	27.4153	18.5384

The average exchange rates of one US Dollar during the financial year were as follows:

	Financial year ended 30 September 2023	Financial year ended 30 September 2022
Euro	0.9356	0.9264

#### 12. Dividends

The Funds, except for FinEx Fallen Angels UCITS ETF, do not intend to pay dividends. Accordingly, there were no distributions declared by any of these Funds during the financial years ended 30 September 2023 and 30 September 2022.

FinEx Fallen Angels UCITS ETF may declare and pay dividends on the RUB shares. Dividends, if any are declared, will be calculated semi-annually on the last business day of the month in which the dividend is declared. The Fund does not intend to pay dividends on the USD shares.

During the financial year ended 30 September 2023, FinEx Fallen Angels UCITS ETF paid dividends of RUB nil (RUB nil dividend per share) (30 September 2022: RUB 4,930,000 (RUB 2.9 dividend per share) on the RUB Shares.

#### 13. Taxation

The ICAV qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997. Therefore, the ICAV will not be liable to Irish tax in respect of its income and gains, other than on the occurrence of a chargeable event. Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation or transfer of shares or the ending of a "Relevant Period". A "Relevant Period" is an eight year period beginning with the acquisition of the shares by the shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A gain on a chargeable event does not arise in respect of:

- (i) any transaction in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland;
- (ii) an exchange of shares arising on a qualifying amalgamation or reconstruction of the ICAV with another fund;

#### 13. Taxation (continued)

- (iii) certain exchanges of shares between spouses and former spouses;
- (iv) an exchange by a shareholder, effected by way of an arm's length bargain where no payment is made to the shareholder of shares in the ICAV for other shares in the ICAV;
- (v) a shareholder who is not an Irish resident and not ordinarily resident in Ireland at the time of the chargeable event, provided the necessary signed statutory declarations are held by the ICAV; or
- (vi) certain exempted Irish tax resident shareholders who have provided the ICAV with the necessary signed statutory declarations.

In the absence of an appropriate declaration, the ICAV will be liable for Irish tax on the occurrence of a chargeable event.

Capital gains, dividends and interest received may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the ICAV or its shareholders.

#### 14. Soft Commission

No soft commission arrangements were entered into during the financial years ended 30 September 2023 and 30 September 2022.

#### 15. Contingent Assets, Contingent Liabilities and Commitments

FinEx Tradable Russian Corporate Bond UCITS ETF has estimated contingent assets of approximately USD 4,787,862 (30 September 2022: USD 1,130,424) relating to accrued interest income on the Russian corporate bonds that were held at Euroclear due to EU sanctions.

FinEx Russian RTS Equity UCITS ETF has estimated contingent assets of approximately USD 6,989,373 (30 September 2022: USD 1,178,844), of which USD 4,865,502 are held on the S-type cash account as of year end, relating to accrued dividend income on Russian securities that are currently held in Moscow, Russia due to Russian government restrictions.

FinEx Emerging Markets ex-Chindia UCITS ETF has estimated contingent assets of approximately USD 42,417 (30 September 2022: nil) and are held on the S-type cash account as of year end, relating to accrued dividend income on Russian securities that are currently held in Moscow, Russia due to Russian government restrictions.

The Directors believe that receipt of the amounts is probable. However, the contingent assets have not been recognised as receivables at 30 September 2023 or 30 September 2022 as receipt is not virtually certain.

There were no contingent liabilities or commitments as at 30 September 2023 and 30 September 2022.

#### 16. Segregation of Liability

Under the provisions of the ICAV Act, the Directors maintain for each Fund a separate portfolio of assets. As between shareholders, each portfolio of assets are invested for the exclusive benefit of the relevant Fund. The shareholders are only entitled to the assets and profits of that Fund in which they participate. The ICAV is considered one single legal entity. With regard to third parties, in particular towards the ICAV's creditors, the ICAV is responsible for all liabilities incurred by a Fund exclusively based on the assets of this relevant Fund. Among the shareholders, the liabilities of each Fund shall only be incurred to the Fund. While the provisions of the ICAV Act, provide for segregated liability between Funds, these provisions have yet to be tested in foreign courts, in particular, in satisfying local creditors' claims. Accordingly, it is not free from doubt that the assets of a Fund of the ICAV may not be exposed to the liabilities of other Funds of the ICAV.

#### **17. Segment Reporting**

The strategic asset allocation committee of the Investment Manager makes the strategic resource allocations on behalf of the ICAV. The ICAV has determined the operating segments based on the reports reviewed by this committee that are used to make strategic decisions.

The committee considers the business as fifteen (30 September 2022: fifteen) Funds which are managed by separate specialist teams at the Investment Manager. These Funds consist of equity portfolios which focus on equity securities and related derivatives and also debt portfolios consisting of debt and cash instruments.

The reportable operating segments derive their income by seeking investments to achieve targeted returns consummate with an acceptable level of risk within each portfolio. These returns consist of interest, dividends and gains on the appreciation in the value of investments. Please see relevant Fund Statement of Comprehensive Income, Statement of Financial Position, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, and Statement of Cash Flows on pages 39 to 71.

#### 18. Offsetting and Amounts Subject to Master Netting Arrangements and Similar Agreements

In order to better define their contractual rights and to secure rights that will help the Funds mitigate their counterparty risk, FinEx Tradable Russian Corporate Bonds UCITS ETF, FinEx Cash Equivalents UCITS ETF, FinEx Global Equity UCITS ETF, FinEx Fallen Angels UCITS ETF and FinEx US TIPS UCITS ETF may enter into an International Swaps and Derivatives Association or similar agreements with their derivative contract counterparties.

The Funds and their counterparties have elected to settle all transactions on a gross basis however, each party has the option to settle all open contracts on a net basis in the event of default of the other party. An event of default may include the following:

- Failure by a party to make payment when due;
- Failure by a party to perform any obligation required by the agreement (other than payment) if such failure is not remedied within 30 days after notice of such failure is given to the party; and
- Bankruptcy.

Also refer to Note 2(b) Credit risk and Note 2(d) Fair value for further details. As at 30 September 2023 and 30 September 2022, there are no derivatives.

#### **19. Restatement of Comparative Information**

In 2023, comparative financial statements of FinEx Cash Equivalents UCITS ETF have been restated to reflect an additional cash balance and unsettled redemption of 65,000 RUB shares amounting to USD 1,288,858 as at 30 September 2022. The redemption instruction was processed in February 2022, however remained unsettled due to inability of the Authorized Participant/Broker to deliver the ETF units (refer to notes 1(v) and 4(b) for additional details).

The effects of the prior period adjustments are as follows:

	Financial		Financial
	year ended		year ended
	30 September 2023	30	September 2023
	As Reported	Increase	As Restated
	USD	USD	USD
Cash and cash equivalents	178,764	1,288,858	1,467,622
Redemption payable	-	(1,288,858)	(1,288,858)

There was no impact on the net asset value due to the restatement of the Fund as at 30 September 2022.

#### 20. Significant Events During the Financial Year

The ongoing conflict between Russia and Ukraine resulted in increased economic and political uncertainty and caused significant volatility in global financial markets since 2022. Economic sanctions imposed on Russia in response to its invasion of Ukraine impacted companies operating in a wide variety of sectors, including energy, financial services, and defence. The suspension of financial exchanges and trade settlement difficulties resulted in illiquidity in sanctioned markets. There were also issues with the receipt of coupons and dividends from securities in those markets.

The Board, in consultation with the Manager, the Investment Manager and the Depositary, having considered developments with the Ukraine/Russian Crisis and the exposure the Funds had to Russian securities or Ruble hedging decided to temporarily suspend all dealing on;

- FinEx Tradable Russian Corporate Bond UCITS ETF from 2 March 2022, and
- FinEx Russian RTS Equity UCITS ETF from 4 March 2022 to date.

The FinEx Tradable Russian Corporate Bond UCITS ETF RUB Class was terminated on 17 January 2023.

On 28 October 2022, the Manager and Secretary became members of the Waystone Group and, on 12 December 2022, changed their address to 35 Shelbourne Road, Ballsbridge, Dublin, D04 A4E0, Ireland. As part of the change, the registered office of the ICAV also changed to the same address. On 29 September 2023, KBA Consulting Management Limited, the Manager of the ICAV, completed its merger with Waystone Management Company (IE) Limited ("WMC"). WMC is the surviving entity post-merger and as such, the ICAV's Manager is WMC from this date. As part of the change, the Secretary changed its name from from Clifton Fund Consulting Limited, trading as KB Associates to Clifton Fund Consulting Limited, trading as Waystone.

PricewaterhouseCoopers, Chartered Accountants resigned as the Auditor during March 2023 in line with the IAASA Ethical Standard, the year ended 30 September 2022 was PwC's tenth and final year as auditor for the sub funds. PwC resigned in accordance with the requirements of mandatory firm rotation. Grant Thornton, Chartered Accountants & Statutory Audit Firm, was appointed as the new auditor on 5 July 2023.

#### 21. Significant Subsequent Events

The decision to suspend dealing was taken with the aim of ensuring the interests of all shareholders of the Funds were protected in view of the market impact of the extensive sanctions imposed by the US, EU and others, and by the decision of the Russian Central Bank to temporarily prohibit execution of orders by non-Russian residents to sell securities. The uncertainty meant that the ICAV was unable to establish a firm price for the Funds' holdings in Russian securities and unable to obtain settlement for any sale. There was also an impact of the settlement of FX forwards on Ruble hedging due to the impact of the crisis.

#### 21. Significant Subsequent Events (continued)

The imposition of economic sanctions against Russia in response to its invasion of Ukraine has resulted in restricted or no access to certain markets, investments, service providers or counterparties and will likely continue to negatively impact the performance of the Funds with direct exposure to this region and may restrict the ability of the Investment Manager to implement the investment strategy of the Funds and achieve their investment objective. In addition, global equity and debt markets have experienced substantial volatility.

All sub-funds delisted from trading on the Moscow Exchange effective 30 June 2023 with no trading in the shares taking place since the suspension began (suspended since 25<sup>th</sup> February 2022). As the National Securities Depositary (NSD) is sanctioned by the EU Commission, any shares held in the NSD account at Euroclear have been frozen and remain frozen.

Considering the outlook for

- (a) FinEx Russian RTS Equity UCITS ETF the Board, in consultation with the Manager, the Investment Manager and the Depositary, have decided to maintain the suspension of this Sub-fund up to the date of signing the financial statements.
- (b) FinEx Tradable Russian Corporate Bond UCITS ETF the Board, in consultation with the Manager, the Investment Manager and the Depositary, have decided to maintain the suspension of this Sub-fund up to the 31 January 2024. On 31 January 2024 an extraordinary general meeting of the FinEx Tradable Russian Corporate Bond UCITS ETF, was convened where the following resolution was passed.

#### BY ORDINARY RESOLUTION:

"THAT the New Investment Objective of the Fund and the New Investment Policy of the Fund hereby be approved subject to such amendments necessary to deal with any comments raised by the Central Bank of Ireland as any director of the ICAV may approve".

In early October 2023 the outbreak of war between Israel and Hamas resulted in increased economic and political uncertainty and caused volatility in global financial markets (particularly crude oil). As this is an evolving situation the Directors will continue to monitor any potential impact on the ICAV.

Restricted cash of USD 1,288,858 due to an unsettled redemption on the FinEx Cash Equivalents UCITS ETF as at 30 September 2022, was cancelled on 8 February 2024. After numerous attempts to source the shares to settle the redemption failed, the Authorised Participant requested that the redemption trade be cancelled and agreed to pay a settlement amount of \$124,000 to partially offset the loss incurred by the share class. Considering available options and in the best interests of the investors, the board agreed to the cancellation and the settlement amount. The redemption trade was cancelled, and the settlement amount received by the share class on 8 February 2024.

There were no other significant events after the financial year end that require disclosure in the financial statements.

#### 22. Approval of Financial Statements

The Financial Statements were approved by the Board of Directors on 12 February 2024.

\*In accordance with the Central Bank UCITS Regulations, the Annual Report documents material changes that have occurred in the disposition of the assets of the ICAV during the financial year. A material change is defined as aggregate purchases of a security exceeding 1 per cent of the total value of the purchases for the financial year and/or aggregate disposals greater than 1 per cent of the total value of sales for the financial year. If there are fewer than 20 purchases/sales that meet the material changes definition, the ICAV shall disclose those purchases/sales so at least 20 purchases/sales are disclosed.

\* Indicative NAV as at 30 September 2023.

## **Remumeration Disclosure (Unaudited)**

### **Remuneration Disclosure of the Manager**

The Manager has designed and implemented a remuneration policy (the "Policy") in line with the provisions of S.I. 257 of 2013 European Union (Alternative Investment Fund Managers) Regulations 2013 (the "AIFM Regulations"), S.I. 352 of 2011 European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations") and of the ESMA Guidelines on sound remuneration policies under the UCITS Directive and AIFMD (the "ESMA Guidelines"). The Policy is designed to ensure that the remuneration of key decision makers is aligned with the management of short and long-term risks, including the oversight and where appropriate the management of sustainability risks in line with the Sustainable Finance Disclosure Regulations.

The Manager's remuneration policy applies to its identified staff whose professional activities might have a material impact on the ICAV's risk profile and so covers senior management, risk takers, control functions and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers and whose professional activities have a material impact on the risk profile of the ICAV. The Manager's policy is to pay identified staff a fixed component with the potential for identified staff to receive a variable component. It is intended that the fixed component will represent a sufficiently high proportion of the total remuneration of the individual to allow the Manager to operate a fully flexible policy, with the possibility of not paying any variable component. When the Manager pays a variable component as performance related pay certain criteria, as set out in the Manager's remuneration policy, must be adhered to. The various remuneration components are combined to ensure an appropriate and balanced remuneration package that reflects the relevant staff rank and professional activity as well as best market practice. The Manager's remuneration policy is consistent with, and promotes, sound and effective risk management and does not encourage risk-taking which is inconsistent with the risk profile of the funds it manages.

These disclosures are made in respect of the remuneration policies of the Manager. The disclosures are made in accordance with the ESMA Guidelines.

Total remuneration (in EUR) paid to the identified staff of the Manager fully or partly involved in the activities of the ICAV that have a material impact on the ICAV's risk profile during the financial year to 31 December 2022 (the Manager's financial year):

Fixed remuneration	EUR
Senior Management	1,387,113
Other identified staff	-
Variable remuneration	
Senior Management	180,517
Other identified staff	-
Total remuneration paid	1,547,630

No of identified staff -15

Neither the Manager nor the ICAV pays any fixed or variable remuneration to identified staff of the Investment Manager.

There have been no material changes made to the Remuneration Policy or the Manager's remuneration practices and procedures during the financial year.

### Sustainable Finance Disclosure Regulation and Taxonomy Regulation (Unaudited)

The Funds have been categorised as Article 6 financial products for the purposes of the Sustainable Finance Disclosure Regulation. For the purpose of the Taxonomy Regulation, it should be noted that the investments underlying the Funds do not take into account the EU criteria for environmentally sustainable economic activities.
